DATE: October 16, 1951

FROM : SAC, SEATTLE

~~CONFIDENTIAL~~SUBJECT: W. MARK FELT
SPECIAL AGENT

ReBulet 10/12/51.

Agent FELT, who is the Applicant Supervisor, advises me that during the period in question the urgency of deadlines was so great that his goal was to completely clean everything off the desk by 6:00 PM each day in time for reports to be placed in the 6:30 PM mail pickup, which is the last pickup that is handled in time to make the night planes to Washington, D. C. He also pointed out that this policy was necessary in order to get leads assigned and mailed on the day of their receipt. As a result, his overtime for October, November and December 1950 was the same as it had always been previously.

Agent FELT also advises me that during the March inspection of this office he came to the realization that as a supervisor he had the additional responsibility of setting an example for the other agents in the matter of voluntary overtime. In this connection, a survey of FELT's voluntary overtime during the past eight months is as follows:

March	1' 42"
April	1' 22"
May	1' 08"
June	1' 03"
July	1' 10"
August	1' 07"
September	56"
October (to date)	1' 10"

Pursuant to your instructions, there is enclosed a special performance rating for this Agent.

RE: REALLOCATION

This employee entered on duty 1-26-42 as a Special Agent in Grade CAF-9, \$3200 per annum and on 2-24-46 was reallocated to Grade CAF-12, \$5180 per annum. As the result of basic salary increases and Uniform Promotions his present salary is \$7640 per annum. He is being considered for GS-13 reallocation in view of the fact that he has had over three years of supervisory work having been designated in August, 1948.

On 7-30-45 he was afforded a meritorious promotion to \$4520 per annum in Grade CAF-11 in view of his excellent work in the Peasant case as well as his deep interest in and loyal application to his duties in the whole German counterespionage program.

Memorandum dated 8-23-48 reflected that his services were to be utilized in a supervisory capacity.

On 3-31-48, 3-31-49, and 3-31-50 he was rated EXCELLENT.

His daily average overtime for October, 1950 was 34 minutes, for November was 37 minutes, for December was 33 minutes.

On 3-31-51 SAC Wilcox rated him in the upper limits of SATISFACTORY and said he was supervising principally applicant matters but included on his desk were some of the criminal violations. He was above average in intelligence and had a pleasing personality. He was able to make excellent contacts with persons outside the office. He was in good physical condition and turned out a very good volume of work.

It is noted his name was submitted several times for consideration on a long range basis for development.

RECORDED-73

By memorandum dated 6-25-51 his SAC recommended that he be considered for Grade GS-13 reallocation. Because he did not assume an equitable share of the responsibilities in the office he was passed over to be reconsidered at a later date.

On 10-16-51 SAC Wilcox rated him SATISFACTORY and said he was intelligent, alert and was interested in his assignment. It was felt he had made an excellent supervisor. The SAC had been entirely satisfied with his services as a Supervisor.

35 DEC 5 1951

In response to the Bureau's inquiry regarding this Agent's low overtime for the months of October, November and December, 1950, the SAC advised that during the period in question the urgency of deadlines were so great that his goal was to completely clean everything off the desk by 6:00 PM each day in time for reports to be placed in the 6:30 PM mail pickup, which was the last pickup that was handled in time to make the night planes to Washington, D. C. It was pointed out that this policy was necessary in order to get leads assigned and mailed on the day of their receipt. However, his SAC advised that his overtime for October, November, and December was the same as it had always been previously. Agent Felt advised the SAC that during the March and April, 1951 inspection of the Seattle Office he came to the realization that as a supervisor he had the additional responsibility of setting an example for the other agents in the matter of voluntary overtime. His overtime for March, 1951 was 1 hour 42 minutes, April was 1 hour 22 minutes, May was 1 hour 8 minutes, June was 1 hour 3 minutes, July was 1 hour 10 minutes, August was 1 hour 7 minutes, September was 56 minutes, and for 16 days in October was 1 hour 10 minutes.

It is noted he is available for special and general assignment.

RECOMMENDATION: It is recommended that he be passed over for Grade GS-13 reallocation at this time and that he be reconsidered in February, 1952.

DATE: December 6, 1951

PERSONAL AND ~~CONFIDENTIAL~~

Reference is made to Bureau letter of October 12, 1951, requesting to be advised as to the reason for the low voluntary overtime performed by Mr. FELT during October, November and December 1950, and requesting that a special performance rating report be submitted on him. Former SAC J. B. WILCOX submitted these under date of October 16, 1951.

Reference is made to SAC Letter #110, 11/13/51, advising as to my responsibility for initiating action recommending personnel for Grade 13 who have completed one year of continuous full-time supervisory assignment. Mr. FELT is in this classification.

The reason for this communication is to advise the Bureau that in reviewing the personnel files of the many people of this office, that of Mr. FELT was included. I am very much impressed not only with the systems that Mr. FELT has worked out in connection with the handling of the very irritating, sudden and high-volume changes in the applicant cases, but also with the high morale that he has developed and maintained among the members of that squad, as well as among the clerical personnel who necessarily are pushed and harassed by the sudden and unexpected volume of work necessary to the smooth handling of the applicant cases. Mr. FELT is doing to my mind an entirely satisfactory job in every respect as an applicant supervisor, and I feel that his suggestions, interest and whole-hearted loyalty make him a much better than average supervisor.

Mr. FELT to me is the career type of employee who follows in the best traditions of the Bureau, and I feel that the Bureau should be heavily influenced by his very excellent attitude in connection with its consideration of this employee for Grade GS-13, which is heartily recommended by me.

Dear Mr. Felt:

You may well take pride in your Tenth Anniversary of Bureau service which occurs today for it represents a decade of loyal and faithful service. I wish to take this opportunity to extend my sincere and heartfelt congratulations and present to you, on behalf of the Bureau, the enclosed Ten-Year Service Award Key.

Many times our tasks in the Bureau have not been easy. However, there is great consolation and much inspiration in the realization that behind all of our efforts there has been the supporting bulwark of loyal and cooperative employees such as you. It has been this corps of devoted employees, willing to push a little harder or sacrifice a little more, that has made it possible for the Bureau to meet the problems at hand. It is encouraging to me to know I can count upon you to continue your splendid contributions to our important work.

PERSONNEL ADVANCEMENT

Re SAC Letter No. 121, Series 1951, dated 12-20-51.

As the Bureau is aware, it is somewhat difficult for me, with the short space of time I have been in Seattle, to prepare a proper full letter in connection with this matter. However, I find I am personally acquainted with some of the more promising agents of the office and I have reviewed the previous selections emanating from Seattle in our letters of September 6, 1950, and April 23, 1951, headed "PERSONNEL—ADVANCEMENT" and "SPECIAL AGENT PERSONNEL—ADVANCEMENT" respectively, and I feel that the Bureau should have additional comments concerning the Special Agents involved than those furnished, as follows:

SA W. MARK FELT

SA FELT is presently functioning as the full time applicant supervisor of this office. I consider this as a very important position, particularly due to the unusual relationship which this office has with the Atomic Energy installation at Richland, and which will become increasingly important due to the increased volume therefrom in the near future because of a projected establishment of at least several more reactors. Mr. FELT has studied the particular problems in connection with the applicant volume here to a point where a system has been set up by him which is now very advantageously being utilized for greater efficiency in the handling of this classification.

Mr. FELT is very industrious, utilizes good intelligence and apparently handles his supervisory duties with a minimum amount of supervision being necessary and I am greatly impressed with him.

The Bureau will remember that Mr. FELT has had previous supervisory service at the Bureau headquarters and I feel that his present utilization is an excellent intermediate step to further develop him for additional responsibilities at some time in the future, but not at the present as I believe that it will take some little time for him to fully explore the possibilities of the handling of the Atomic Energy work in his present assignment, which is one of the most important things of this office.

In an effort to function well in this regard, Mr. FELT has toured the Atomic Energy installation at Richland, developed good personal contacts in connection with the officials there to a point where the relationship is developing nicely for our benefit.

Re: Personnel Advancement

There has been instituted in the office in an effort by him to properly handle the large volume, which has gotten to the point of closing one thousand cases a month at some times, a system of green-slipping for resident agent dictation, which permits the dictation to be specially routed for quick handling at the headquarters city, and an informal previous deadline limit to that set by the Bureau in an effort to better distribute the load for the stenographic pool by previous preparation for unusual volume. Accordingly I feel that FELT has good potentialities in every respect for further advancement but do not believe that such additional development requires more Bureau supervisory service, i.e., it is felt that with some additional seasoning as supervisor of the applicant work here, he will be qualified for direct ASAC assignment within several years.

SA CHARLES H. DE FORD

Mr. DeFORD was listed on the previous communications from this office and while I have known this agent for some time and have great respect for, and confidence in, his abilities, I do not feel that he should be considered at the present time for additional advancement. Mr. DeFORD is completely and thoroughly grounded in Bureau policies and experience, and had considerable Bureau supervisory service at headquarters, the results of which reflect daily in his handling.

Mr. DeFORD is the supervisor of the security work of this office and we are at the present time in the process of revamping this desk because of the large scale work and problems contained thereon. I personally feel, as does Mr. DeFORD, that there is considerable room for additional and more expeditious handling in connection with the security desk of this office. We are presently starting a new liaison arrangement with the Royal Canadian Mounted Police at Vancouver and Victoria, B.C. as to their internal security problems, and we find there is currently a considerable amount of relationship and good which can come of this liaison as it develops. There are several areas in the state handled under this division, which to my mind are susceptible of additional work in connection with internal security as to Communist Party activities generally. While the coverage that this office has through its headquarters is apparently excellent, I feel there is still room for additional work as we can get more personnel to function on this assignment. It appears to me that the security work of this division which is being handled by Mr. DeFORD should be considered as a major supervisory assignment by the Bureau due to the importance of the area and the amount of hard core communist matters contained therein, and I feel that Mr. DeFORD's present assignment will season him considerably, permit his additional development and should not be subject to change at this phase of handling.

Director, FBI

January 5, 1952

Re: Personnel Advancement

In this regard I might comment for the Bureau that Mr. DeFORD has at the present time developed an extensive scalp eczema, which I am informed is the result of nerves and tension due to the concentration and long hours which this Special Agent has given to his assignment. Because of this condition I do not feel that the Bureau would be well advised to change Mr. DeFORD into additional responsibilities until this condition is ameliorated. Mr. DeFORD is handling this condition as a personal matter and it will shortly be corrected.

SA H. EDWARD MC NULTY

Seattle reference letter of April 23, 1951, expressed the opinion that in the fairly near future the Bureau might be able to consider Mr. McNULTY for additional advancement. This agent's personal situation still continues, involving the severe physical condition of [redacted], and I am advised that [redacted] in the immediate future, which demand being handled [redacted] and as a consequence I feel that the Bureau should for at least several years or more disregard the possibility of considering him for additional responsibility.

b6
b7C

The following individuals are being submitted by me as a result of my personal observation of them for the short space of time I have been here, plus the recommendations of several of the supervisors who are presently handling them:

SA [redacted]

b6
b7C

[redacted] EOD'd 10-20-47 and is presently in GS-12. He is assigned to the security squad and he is above average in every respect in his handling of his work. His reports are well prepared, his production is good and he readily accepts responsibility. He is capable of handling delicate and involved investigations. Very importantly, he has an excellent attitude in connection with his work, and I feel that on a preliminary basis he can at least function as a beginning supervisor, should the Bureau desire to so utilize him.

SA [redacted]

b6
b7C

[redacted] EOD'd 7-12-48 and is presently in GS-11, functioning as a resident agent in Spokane, Washington. I am advised that he is considered definitely above average over other personnel of similar time and experience in the Bureau, and with some additional seasoning would be enabled to be designated for future additional responsibilities. According to his file he apparently is well above the average agent in his work, is enthusiastic, cooperative and has displayed unusual resourcefulness and aggressiveness in his work, and is capable of being considered for additional assignment as his experience lengthens.

Director, FBI

January 5, 1952

Re: Personnel Advancement

SA [REDACTED]

[REDACTED] EOD'd 9-22-47 and is in GS-12, functioning as a headquarters city agent, handling security matters. I am informed that he is an excellent agent in every respect in his work and in addition presents a tall, well built, well groomed appearance. He has a quiet but confident manner and a pleasant personality, and I feel that he has excellent potentialities for advancement.

b6
b7C

SA [REDACTED]

[REDACTED] EOD'd 7-7-47, is in GS-12 and is functioning on the security squad. He has previously been recommended to be an assistant supervisor on that squad but was not approved by the Bureau, apparently due to his length of service, but is approved as a relief supervisor. The Bureau's records will reflect that [REDACTED] has had considerable supervisory experience in a relief capacity and I am impressed by observation and comments of the personnel that this agent is the type who would make a good Bureau supervisor in security matters. His functioning in this regard would decide to a great degree whether the Bureau could utilize him beyond that point in the future.

b6
b7C

SA GEORGE L. LEWIS

Mr. LEWIS originally EOD'd in 1942, resigned in 1947, and reentered the Bureau as an agent on November 13, 1950, and is now assigned as the senior resident agent at Bremerton, Washington, with GS-12. Mr. LEWIS is a very impressive individual physically. He presents a very excellent appearance, has an obviously likeable and pleasing personality and should be considered as an experienced, overall, above average agent in his functioning. I feel that Mr. LEWIS offers considerable possibilities for future long range advancement, and it is the opinion of the supervisors of this office that his work is excellent in every respect, not only on case work, but contact work, use of judgment and knowledge of Bureau policy.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee W. MARK FELT Title Special Agent
Rating Period: from 3/31/51 to 4/1/52

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
0 No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

RE: W. MARK FELT
SPECIAL AGENT, GS-13

SA W. MARK FELT continues to function as the Applicant Supervisor. He is unusually and consistently interested in improving the over-all functioning of the office and has made a continuous and resulting effort to streamline the handling of the work on his desk.

I feel that Mr. Felt is an asset to this office in every respect. He works hard, is well thought of by the personnel and continues his supervisory assignment in a completely satisfactory fashion.

Mr. Felt can handle any kind of an assignment, is qualified to function in dangerous matters and is available for general of special assignment as the Bureau may desire.

This employee continues to function satisfactorily in his ability to dictate, operate on a physical surveillance, handle his paper work, do necessary contacting and properly organize and initiate investigation. He is physically fit and although I have not had the opportunity to observe, I have no doubt has satisfactory ability to testify.

During the rating period Mr. Felt has developed considerably as a qualified Bureau speaker and I have received a number of commendatory comments concerning him in this regard.

I feel that he should be considered as one of the best employees in this office.

Assisted B. C. Brown in San Francisco in May, 1952. He reviewed applicant files, surveyed applicant procedures and handled War Plans. He supervises applicant cases in the Seattle Office and has an excellent understanding of the administrative procedures. He is energetic, discerning, has a great deal of initiative and should be considered for long range development, providing his physical condition permits. At the time of the inspection he was awaiting the results of a physical examination to determine whether he had a heart condition. If the examination proves him to be fit, he should be considered as ASAC material.

SUBJECT: PERSONNEL ADVANCEMENT

W. Mark Felt

Re SAC Letter No. 34, Series 1952, dated 4/8/52.

The Bureau is referred to my communication of 1/5/52. These remarks still hold good.

I might note in response to referenced communication that I have not waited for the periodic review of individuals of this office in answer to similar previous SAC Letters to recommend them for additional responsibilities by transfer to the Bureau, but have in the last 60 days alone by separate communication recommended that the Bureau consider for supervisors the following personnel:

[REDACTED]
PAUL C. YOUNG

b6
b7C

[REDACTED]
JOSEPH K. PONDER
[REDACTED]

In accordance with instructions in referenced letter to account for each Special Agent in Grade GS-13, the following data is submitted with my comments attached thereto. This office has sixteen individuals in this grade, including the ASAC and four supervisors, out of approximately 150 Agents.

ASAC FRED T. McINTYRE

Mr. McINTYRE has been only several weeks in this office on transfer as ASAC from El Paso. He is a completely mature and substantial individual and is desirous of progressing in the administrative phase of the work of the Bureau. I shall be able to give a better picture of his status when he has been here longer.

ALBERT C. BISE

Mr. BISE is 47 years of age, has previously had Bureau supervisory experience and handles largely in the police contact work of the Bureau. He is a field man and has not handled paper work in an above-average manner.

Re: PERSONNEL ADVANCEMENT

[REDACTED]

b6
b7C

This Agent is the Senior Resident for the small rural area of Vancouver, Washington. He is just not the type for supervisory or desk work but instead is interested in field investigative work.

EMORY E. BUNDY

As the Bureau is aware, Mr. BUNDY has a serious personal situation as far as the transfer portion of administrative work is concerned, [REDACTED]. In addition, the Bureau is aware of his physical limitations of deafness.

b6
b7C

[REDACTED]

[REDACTED] is functioning as Senior Resident Agent at Everett, Washington. Eventually he will be available for additional responsibilities but not at this time. As the Bureau is aware, he has a child with a serious speech impediment necessitating specific and continued corrective work, which has been handled for the past several years and will be continued for several years more with one specialist doctor. In addition, [REDACTED] himself has recently had corrected by major surgery serious and extended mastoid infection which is still not entirely cleared up and will itself necessitate continued local treatment for sometime. The Bureau will be advised when [REDACTED] is available.

b6
b7C

DANIEL CURRIE, JR.

Bureau records will reflect that the Bureau removed Mr. CURRIE from the position of ASAC. He is a most valuable adjunct to this office, but I do not believe that the Bureau is desirous of affording him administrative advancement in view of the past history.

CHARLES H. DeFORD

See my letter 1/5/52, captioned PERSONNEL ADVANCEMENT, reflecting future additional possibilities but not at the present time.

F. CLARE DORWART

Bureau records will reflect the removal of Mr. DORWART as ASAC at San Diego. He is 47 years of age, and it is not felt the Bureau would have good return from a long-range advancement program for him due to this fact.

Director, FBI

4/25/52

Re: PERSONNEL ADVANCEMENT

LLOYD A. DUCOMMUN

Bureau records will reflect that this individual was removed from an administrative position due to his physical condition, he presently having only one kidney, etc., as reflected by Bureau records. It is not felt due to his physical condition that the Bureau should consider him for long-range advancement.

W. MARK FELT

See my letter 1/5/52, captioned PERSONNEL ADVANCEMENT, reflecting future additional possibilities but not at the present time.

[REDACTED]

[REDACTED] is completely a field investigative agent. He does not appear to me to have the desire for or the makings of an administrative official, although he is a very competent field investigative man and handles a substantial part of the more involved investigative cases in the office.

b6
b7C

OTTIS V. KELLEY

Mr. KELLEY is just not the type of individual for long-term administrative advancement. He is extremely industrious but a slow plodding individual with only high school background and unquestionably functions well only as an investigator.

KENNETH LOGAN

Mr. LOGAN was formerly SAC and is 48 years of age. It is not felt that the Bureau is desirous of affording him long-range development training as will be reflected by numerous Bureau records.

[REDACTED]

[REDACTED] is presently functioning as Senior Resident Agent at Spokane, Washington, where he does a very excellent and satisfactory job. I do not feel that [REDACTED] is administrative material. He is too nervous to do administrative work. I might note that he previously had training as a supervisor at Los Angeles and was not an outstanding success at it but instead was reassigned as an agent.

b6

Director, FBI

4/25/52

Re: PERSONNEL ADVANCEMENT

JOSEPH P. MacFARLAND

Mr. MacFARLAND is a former SAC, and due to his age and past Bureau records I believe he does not warrant consideration for long-term development.

WILLIS S. RICH

Mr. RICH is 53 years of age. It is not believed in view of this fact he should be afforded any such administrative training.

The Bureau may be assured that as additional individuals are screened they will be brought to the attention of the Bureau, as in the past, for personnel advancement.

EXPEDITE PROCESSING

SUBJECT: W. MARK FELT,
SPECIAL AGENT.

JUL 8 1952

Enclosed is Form CC-270 reflecting the results of this Agent's physical examination, including a four lead electrocardiograph at the Naval Air Station, Seattle, Washington.

Also enclosed is a detailed Cardiac Evaluation for this Agent, which was conducted at the Naval Hospital Heart Station, Bremerton, Washington.

I arranged for the detailed Cardiac Evaluation because of the preliminary diagnosis at the Naval Air Station of Angina Pectoris type pain. As will be noted, the Cardiac Evaluation appears to exclude the possibility of cardiac involvement. The heart specialist at Bremerton comments that he sees no reason to restrict this Agent's physical activity.

SA FELT has consulted his personal physician concerning this situation at various times during the past year. An electrocardiograph one year ago was normal, as were other routine tests. FELT's personal physician also feels that there is no cardiac involvement and attributes the symptoms to neuritis or to some disturbance in the cervical region of the spine, causing pressure on the nerve which would result in symptoms approximating those evidenced, both of which conditions would be aggravated by nervous tension.

Inasmuch as all phases of this examination and specialized tests are completely normal, I contemplate no further immediate action in the matter. I will, however, arrange for a re-check physical examination for Agent FELT at the end of one year, or sooner if indicated, and will promptly advise the Bureau of any further developments.

Cardiac Evaluation

This 38 year old investigator of the F.B.I. was referred here for cardiac examination and evaluation.

Complete physical examination as well as clinical history revealed no evidence of past or present heart disease. Because of his history of recurrent periodic attacks of left upper chest pain and associated distress in his left arm, a more complete laboratory study was done. The nature of the precordial and arm distress this man experiences is not typical of Angina Pectoris or coronary pain. There is no relation to physical exertion, however, a very definite relationship has been noted with motion or movement of his arm in specific positions. He has noted an increased frequency and severity of his pain during or right after periods of nervous tension. There has never occurred an episode of excruciating pain requiring a hypo for relief, nor has this pain ever awakened him from his sleep or caused him to perspire profusely or become nauseated or vomit because of severity. He has not taken any medication for relief of this distress. This man is able to ascend with impunity the hills and streets in downtown Seattle and experiences no pain or aggravation of existing distress during such efforts. He doesn't become unduly short of breath following such exertion nor has he ever had other objective evidences of cardiac decompensation.

A complete electrocardiogram including standard, augmented extremity, and unipolar precordial leads was completely normal. A Ballistocardiogram was normal. An exercise tolerance test (Master 2-Step Test) was performed Double the required number of ascents for a man of this age and weight (The successful completion of a normal double Master Test is believed to exclude coronary artery disease) without subjective symptoms and without significant changes in the electrocardiogram. A Blood Cholesterol was 209 mgm% (Normal).

Impression: I do not believe this man has significant coronary artery disease nor Angina Pectoris and I can see no indication of necessity for restriction of his physical activity.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee W. MARK FELT Title Special Agent
 Rating Period: from 4/1/52 to 3/31/53

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

RE: W. MARK FELT
SPECIAL AGENT, GS-13

This is the annual performance rating on SA W. MARK FELT, who has functioned as Applicant Supervisor during the entire rating period.

Mr. Felt makes a very fine appearance, has a pleasing, attractive personality and is unusually effective in his contacts.

The performance of his work has shown he has an excellent grasp of Bureau policies, pays meticulous attention to detail, handles personnel very capably and in general has shown himself to be an excellent supervisor.

He has voluntarily spent many hours in overtime work, has consistently made excellent suggestions to improve the workings of the office and is very well rounded in his Bureau experience. I believe he would be capable of handling any of the Bureau's complicated cases, is physically fit for his work, and could participate in dangerous assignments.

I consider Mr. Felt has executive and administrative ability and believe he could successfully function as an Assistant Special Agent in Charge. Due to this man's loyalty to the Bureau, his unflagging interest in his work and his general all-around competence, I consider him a distinct asset to this office and to the Bureau.

Mr. Felt is available for any special or general assignment as the Bureau may desire.

APPLICANT-LOYALTY SUPERVISOR

EOD: 1/26/42

GRADE: GS-13

SALARY: \$8360

SAC AUERBACH:

Mr. FELT is a completely career type employee and has administrative and executive ability. I feel that he is excellent material for a present ASAC-ship and ultimately SAC-ship. He is a well-rounded individual in every respect and a most valuable part of the Seattle Division.

INSPECTOR : Mr. FELT makes an excellent appearance. He is tall, well but quietly dressed, soft-spoken, and of easy manner, which is rather disarming upon first impression. He has sufficient force and aggressiveness to function well as an administrator or executive.

b6
b7C

At the present time Mr. FELT is supervisor of the applicant desk. No substantive errors were found on that desk during the inspection. Only four deadlines were missed without the Bureau being advised, and an analysis of these reflected there was no fault of his. He has a definite flair for detail and handles the personnel assigned to him in a very good manner.

He is a mature agent and has handled almost all types of cases which the Bureau has under its jurisdiction. He is loyal to the Bureau and a definite asset to it. I believe he has administrative and executive ability and that he could function quite well as ASAC of a small office.

It is recommended that consideration be given to promoting this man to the position of ASAC.

OFFICE MEMORANDUM . UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI

Date: March 23, 1953

FROM: SAC, SEATTLE

PERSONAL AND CONFIDENTIAL

SUBJECT: PERSONNEL ADVANCEMENT

W. Mark Felt

Re SAC Letter #53-12.

Reference is made to my letters of 1/5/52 and 4/25/52.

I. Agents - Personnel Below Grade GS-13

There are no Special Agents in the Seattle Office whom I would recommend for immediate advancement either due to the fact that the personnel so recommended, as set forth below, are presently engaged in the Smith Act trials or for severe personal situations which would not permit immediate consideration.

The following personnel are recommended by me for long-range consideration for advancement:

SA [redacted]

b6
b7C

[redacted] entered on duty February 3, 1947. He has been in several offices, is a mature individual, and I think offers considerable potentialities as his experience increases. I think that within the next few months he will be available for immediate consideration to be a Bureau supervisor.

SA [redacted]

b6
b7C

[redacted] continues to be assigned to the Security Squad and is above average in every respect in his handling of his work. He is ready for additional responsibility. Immediate consideration should be deferred inasmuch as he is vitally concerned with and in the middle of and responsible for a lot of handling in connection with the current Smith Act trials.

SA [redacted]

b6
b7C

[redacted] has the makings and potential for additional advancement. I would think he would function well as a Bureau supervisor.

SA GEORGE L. LEWIS

Mr. LEWIS is the Senior Resident Agent at Bremerton, Washington, with original EOD 1942, resignation 1947, re-EOD 11/13/50. Mr. LEWIS in my opinion offers considerable possibilities for future long-range advancement; however, I think that

advancement should be deferred until he obtains some additional experience in the field. Otherwise, from his appearance, manner, attitude, etc., I feel that he has considerable possibilities.

SA H. EDWARD McNULTY

Mr. McNULTY personally continues to progress in his work. He at least would be a fine Bureau supervisor; however, [redacted] as the Bureau has been informed by letter of April 23, 1951, continues to necessitate regular [redacted]. It will be several years before he could be considered.

b6
b7C

SA [redacted]

[redacted] continues to function on the Security Squad. We have previously recommended him to be an Assistant Supervisor, which was apparently not approved by the Bureau due to his length of service (EOD 7/7/47). His present assignment concerns personnel in connection with the current Smith Act trials, and I believe that he would make a good Bureau supervisor in security matters in the future.

b6
b7C

SA PAUL C. YOUNG

With some additional experience, Mr. YOUNG, on a long-term basis, should be considered to start with as a Bureau supervisor as having considerable potentiality in the future.

II. Personnel in Grade 13

SA CHARLES H. DeFORD

Seemylet 1/5/52 captioned as above which reflects future potentialities and possibilities for Mr. DeFORD. My opinion has not changed, but he is not available at this time because he is the security supervisor in connection with the Smith Act trials and still continues to have the dormant acne situation, undoubtedly due to the pressure of his work. I feel that at this time he should not be considered except as a long-range possibility.

SA W. MARK FELT

As reflected by mylet of 1/5/52 captioned as above, Mr. FELT reflects considerable potentiality and possibility for advancement. He has been recommended by me for immediate consideration as ASAC.

My opinion has not changed, and I do not believe that the following personnel are suitable for additional advancement by the Bureau, either because of desire for field work or they just are not the type for administrative or executive duties, due to the factors set forth:

DIRECTOR, FBI
RE: PERSONNEL ADVANCEMENT

SAC, SEATTLE
March 23, 1953

SA ALBERT C. BISE

Mr. BISE is 48 years of age, and his best field is in police contact work. He is a field man with not above average handling in paper work.

SA ROY W. BLACK

Mr. BLACK is a career type, field investigative Agent, and it is not believed that the Bureau should consider him.

SA [REDACTED]

He is a very competent, career type field Agent.

SA [REDACTED]

b6
b7C

[REDACTED] is a career type, field investigative Agent, and it is not believed that the Bureau should consider him.

SA [REDACTED]

He is a Senior Resident and just not the type for administrative work.

SA EMORY E. BUNDY

Mr. BUNDY is 49 years of age, [REDACTED], and the Bureau is aware of his physical limitation of deafness.

SA [REDACTED]

b6
b7C

[REDACTED] himself has recently received major surgery in connection with mastoiditis, will have to undergo additional treatment, and has a child who has to be handled by one specialist surgeon. He is not available at this time and unquestionably is a field type Agent.

SA DANIEL CURRIE, JR.

The Bureau removed Mr. CURRIE from the position of ASAC. Due to his age, it is not felt the Bureau would have a good return from additional advancement for him.

SA F. CLARE DORWART

The Bureau records will reflect the removal of this Agent as ASAC. Due to his age, it is not felt the Bureau would have a good return from additional advancement for him.

SA LLOYD A. DUCOMMUN

This man's physical condition, i.e. having only one kidney, plus his age result in the conclusion that the Bureau should not consider him.

DIRECTOR, FBI
RE: PERSONNEL ADVANCEMENT

SAC, SEATTLE
March 23, 1953

SA [REDACTED]

b6
b7C

This Agent to my mind is completely a field investigative Agent. He neither has the desire nor the makings of an administrative official, although he is a competent field investigative man.

SA OTTIS V. KELLEY

This employee is just not the type for long-term administrative advancement. He is a slow, plodding individual, whose best function is as an investigator.

SA KENNETH LOGAN

Mr. LOGAN was removed from the position of SAC and is 48 years of age. It would not be a good return for the Bureau's long-range planning to consider him.

SA [REDACTED]

b6
b7C

[REDACTED] is a field investigative Agent who did not do well as a supervisor at Los Angeles. He is too nervous to handle administrative work.

SA JOSEPH P. MacFARLAND

He is a former SAC, and due to his age does not warrant consideration.

SA WILLIS S. RICH

Mr. RICH is 53 years of age and should not be afforded any additional administrative training. He does an extremely satisfactory job in his present position.

SA [REDACTED]

b6
b7C

[REDACTED] is a straight field investigative Agent type. He is very average in his paper work and in my opinion does not possess any possibilities in this regard.

PERSONAL

Dear Mr. Tolson:

In accordance with my last conversation with you, you requested that I drop you a note if I felt that Jim Kelly, the ASAC here, were ready for consideration as an SAC.

Of the five Assistant SAC's I have personally had and others with whom I am acquainted and with whom I have functioned, I think Kelly tops them all and heartily recommend him for your consideration as an SAC.

Should you decide to move him, I would like to take the liberty of recommending to you that you consider W. Mark Felt, the present Applicant Supervisor of this office, as a replacement for Kelly here. Felt has an excellent background of both Bureau and field supervisorship and has functioned in this office in an entirely satisfactory and much above average manner as a supervisor. I think he could function with no trouble at all as an ASAC here. He has substituted from time to time, as necessity occurred, with excellent results. He is ambitious, presents an excellent appearance, and I think would do the Bureau credit. He would be able to slide into that position with a minimum of disruption of the office, which may be a factor, since we have had six ASAC's here in the past three years.

Sincerely,

R. D. AUERSBACH

Dear Sir:

The Bureau is in receipt of the results of the physical examination afforded the above Agent on April 24, 1952, at which time he was certified for only mild physical exertion and no firearms; however, it is noted on the report of the consultation afforded him on June 12, 1952, that the cardiologist sees no indication of necessity for restriction of his physical activity.

In view of this, no action is being taken to place Agent Felt in a limited duty status and he is considered capable of strenuous physical exertion and participation in duties involving the practical use of firearms.

The Bureau should be immediately advised if he experiences any difficulty with his condition, and it is desired that you make sure that he is afforded a physical examination at the end of one year and furnish the Bureau with the results.

Remylet 6/1/53.

For the information of the Bureau, SA FELT returned to duty at 8:30 A.M., June 30, 1953. According to his Doctor's instructions, he is not to engage in any strenuous activity for an additional three-week period; however, the Doctor feels that he is perfectly capable of handling his assignment as Supervisor.

I personally discussed this case with FELT's physician, Dr. CHARLES E. MacMAHON, who advised me that the biopsy disclosed the cause of FELT's difficulty to be a fat pad in the abdominal area which had become twisted in such a manner as to cut off its blood supply. The pad was removed during the course of the operation.

Dr. MacMAHON assured me that SA FELT will suffer absolutely no ill effects and that after his period of convalescence his condition will be completely normal.

Dear Sir:

The Bureau is in receipt of your letter of July 1, 1953, advising that Agent Felt returned to duty on June 30, 1953, but was advised by his doctor that he is not to engage in any strenuous activity for an additional three-week period.

No action will be taken to remove him from limited duty until the Bureau is furnished with a medical certificate stating that he is physically capable of participating in duties involving strenuous physical exertion and the practical use of firearms.

Very truly yours,

I spoke to Mr. Felt during his attendance at the Two-day Supervisors' Conference at the Seat of Government and Mr. Felt indicated he was very much interested in advancing in the Bureau's service. At the time of the interview Mr. Felt had a pencil in his outside coat pocket and I suggested to him that as a matter of appearance he not carry his pencil on the outside of his coat. He expressed regret and stated normally he was not in the habit of carrying his pencil there but having been just called out of conference he placed it there as a matter of convenience.

Mr. Felt makes a good personal appearance, has a very good personality, appears to be above average in intelligence, and I think he possesses very good prospects for further advancing in the Bureau's service. He entered on duty with the Bureau on January 26, 1942, and as a result he would not be considered for advancement to the position of ASAC for some time to come. During the interview with me he indicated there were no restrictions on his availability and that he was anxious to progress in the Bureau's service.

The foregoing is submitted for record purposes.

SUBJECT : COMPLAINT DESK

Suggestion #337

During the years a practice has grown up in many Bureau Field Offices of referring to individuals who furnished unsolicited information, either by telephone or personally at the field office, as "complainants". Interviews with these individuals are referred to as "complaints"; the interviews are handled in "complaint rooms"; the information is recorded on a "complaint form" and the Agent assigned to this type of duty is referred to as the "complaint agent".

Many responsible citizens voluntarily furnish information to the various field offices and while we refer to this practice as "complaints" I am sure that the bulk of these individuals do not regard their calls as complaints in any sense of the word and they might be somewhat hurt if allowed to feel that the Bureau so regarded their activity along this line. In other words, I feel that it is unfortunate for these individuals to overhear in the office any reference to their visit as a complaint or to see notations being made on a form headed or referred to as a "complaint form".

Because we have so long used these expressions within the office, I am wondering if there is not a tendency to inadvertently use these terms in front of the individuals who have come to the office to furnish information.

Accordingly, Supervisor MARK FELT of this office suggests that consideration be given to eliminating the use of the word "complaint" in any of its forms and substituting instead the word "interview" where applicable. For example, the following could be used: Interview Room, Interview Form, Interview Duty, etc. His suggestion would also be that the word "complainant" be eliminated entirely and that instead these individuals be referred to only by name.

Dear Mr. Felt:

Thank you very much indeed for the views which were made available by your Special Agent in Charge under date of July 15, 1953, concerning terminology employing the word "complaint." Very careful consideration has been given to your proposal; however, in the Bureau's opinion it is believed that confusion might result from the change you suggested.

Although favorable action is not being taken with regard to this proposal, I do want to encourage you to submit other thoughts from time to time as they may come to mind.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee W. MARK FELTTitle SPECIAL AGENTRating Period: from 4/1/53 to 3/31/54

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
0 No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

RE: W. MARK FELT
SPECIAL AGENT, GS-13

Special Agent W. MARK FELT has continued to function as Applicant and Espionage Supervisor during the entire rating period and is entitled to a Satisfactory rating in every regard.

He makes a very fine appearance, has a pleasant, attractive personality and gets along very well not only with his personnel but also with the public, with whom he has had a good deal of contact during the last year. He has made a considerable number of speeches and has done some liaison work in connection with the Bank Robbery Program with the various bank officials and employees in the area. All of the comments have been uniformly good concerning his functioning. I feel that his work reflects he has a very excellent grasp of Bureau policies through his previous service as a Bureau supervisor as well as his field experience. He pays meticulous attention to detail and has a very inquiring mind, to a point where he has a long-range, over-all viewpoint on the various aspects of the work of the office, reflecting himself to be completely career-minded.

He is capable of handling any of the Bureau's complicated cases, and I believe he has considerable executive and administrative ability to a point where he can successfully function as an Assistant Special Agent in Charge. He is a distinct asset to this office and to the Bureau, and is entitled to a rating of Satisfactory.

AIDED IN INSPECTION OF:

ANCHORAGE OFFICE,
6/9-12/54

ASSIGNMENTS:

1. Review of Criminal Informant Files
2. Analysis of Criminal Informant Program
3. Review of Criminal Files
4. Review of Security Files
5. Aiding in Final Assembly of Report

In all of the above assignments, SA FELT did an excellent job. He is conscientious, enthusiastic, meticulous in his work, and needs only a minimum of supervision. He understands the Bureau problems and responsibilities as well as its rules and regulations.

*7/1/54
6/10/54*
 He makes an excellent appearance. At the present time he is Supervisor of Espionage and Applicant cases in the Seattle Office. He aided in six inspections other than this one. He is available for general and special assignments anywhere. I believe that Mr. FELT has administrative and executive ability and he could quite ably handle the position of Assistant Special Agent in Charge at the present time. I consider him an excellent Aide and feel that he could ably act as No. 1 man to an Inspector on inspections.

(U) The Bureau's specific attention is directed to Bulet of June 14, 1954, under the above-captioned Bufile, "ANAGRAM - JAPAN; ESPIONAGE - J", to Los Angeles, a copy of which was furnished to Seattle. This communication reflected the success of the Los Angeles and Seattle Offices in gaining access to particular data and stated, "This information has proven of inestimable value to the United States Government" and that an evaluation of the material furnished by the Bureau as a contribution to the situation has permitted the Government to handle a peculiarly delicate matter. (C)

(U) The Bureau is advised that as far as the Seattle Office is concerned, almost the total credit for the obtaining of this material belongs to Special Agent [REDACTED] of this office who developed this situation from the very beginning merely as an academic and extra-curricular interest, since at the time he began the development of this phase the Japanese official family in Seattle had not even yet been re-established here but were merely in the planning stage concerning which there had been some newspaper publicity. From this beginning, [REDACTED] worked up the situation under the supervision of Supervisor W. MARK FELT of this office to a point where the results are as specified above. (C)

It is suggested that the Bureau write very cordial letters of commendation to both [REDACTED] and Supervisor FELT in connection with the situation.

CONFIDENTIAL

b6
b7CSUMMARY OF FINDINGS

R. D. Auerbach, SAC, Seattle, since 10-22-51.
John A. Holtzman, ASAC, since 5-4-53.

PHYSICAL CONDITION AND MAINTENANCE.....EXCELLENT ✓

Space, in Federal Reserve Building, has not changed since last inspection. It is adequate and in excellent shape. 64 square feet per employee. Two minor deficiencies found in 10 automobiles, neither of which affected safety. Corrections made. Check automobile register reflected mileage of cars noted incorrectly on 2 occasions. Corrections made. 71 automobiles assigned Seattle for use of 108 investigative personnel. Four cars (3 1948 Buicks and 1 1948 Ford) have over 60,000 miles and are not adequate for pursuit purposes. However, SAC desires to keep them, inasmuch as they are valuable for Communist surveillance purposes. Inspector agrees. No delinquencies noted in firearms, and one minor delinquency noted in photographic equipment.

INVESTIGATIVE OPERATIONS.....FAIR ✓

As of 6-1-54 there were 2304 pending cases, with 762, or 36.5%, delinquency. The following important classifications carried a delinquency which was higher than the over-all index: Of the 5 Extortion cases pending two, or 40%, were delinquent; of the 61 White Slave Traffic Act cases pending 26, or 42.6%, were delinquent; of the 35 Theft of Government Property cases 17, or 48.6%, were delinquent; of the 366 security (100 classification) cases 137, or 37.4%, were delinquent; of the 65 security (105 classification) 42, or 64.6%, were delinquent; and of the 37 Plant Informant cases pending 24, or 64.9%, were delinquent. The over-all high delinquency and extremely high individual classification delinquencies referred to above caused in part by the sudden and high increase of Atomic Energy Act cases received recently.

EXEMPT FROM GDS DATE 08-01-2009
DATE OF DECLASSIFICATION INDEFINITE

CONFIDENTIAL

As of 6-9-54 there were 516 Atomic Energy Act cases pending. On that date it was estimated 110 more would be received from the Bureau to be completed during current fiscal year (prior to 7-1-54). Of this 516 pending cases in approximately 50% the deadline had been missed. As a result of this suddenly increased applicant-type case load, 5 stenographers were sent to Seattle on "special" for a period of 30 days. 38 Agents were sent to Richland, Washington, during week of 7/1-8/54, where the bulk of the work was to be done. A streamlined program was set up whereby each Agent was handling approximately 1.3 case investigations per work day. Estimated this program will make it possible that all Atomic Energy Act cases received and anticipated from the Bureau, as noted above, would be completed by 7/1/54.

Another reason given for the high investigative case delinquency was the acceleration of the summary report program in security cases. As of June 8 there were approximately 90 to be completed. This program has target date for completion of July 14, and Seattle Office expects to make it.

Estimated 51 Agent days pending accounting work in 5 files. Eight accountants assigned Seattle Division, four of whom not fully qualified to handle all investigations. SAC directed to give these four opportunity to work with fully qualified accountants to add to their experience.

In investigation of top hoodlum program Seattle Office had opened 16 independent files (One on each person designated as a top hoodlum). This not in accordance with SAC Letter #53-58 dated 8-25-53, which instructs such cases should be a subfile to the General Investigative Intelligence File. These 16 files ordered closed by Inspector and subfiles opened in conformance with present rules.

2304 pending investigative cases in Seattle Office, of which 197 were fugitive cases. Of this 197, fourteen, or 7.1%, had leads which had not been covered within 30 days of their receipt. In 1149 pending cases reviewed (This excludes security-type matters.) 138 over one year old. Of this 138 twelve, or 8.6%, were delinquent.

Of the 1534 total pending cases reviewed, errors of substance were found in 3, or .19%. Of the 360 closed files reviewed, an error of form was found in one, or .27%.

Of 560 closed files reviewed
no errors of form noted.

In the 1534 pending files reviewed, errors of form were found in 153, or 9.97%. Too high. SAC directed to reduce. Of these errors of form, 59.3% were attributable to Agents and 40.7% attributable to Clerks.

Security work:

(U) Increase in Party members noted above estimated by Seattle Office to be reregistrations and other members brought back under Communist Party control during year and to fact that sources of information regarding Party numbers better now than then. Decrease in number of security informants caused by loss occasioned through use of informants as witnesses in Smith Act trials April - October, 1953. SAC advised that 4 missing key figures must be located. Security informants evaluated: 2 excellent; 11 very good; and 9 good. Potential security informants evaluated: 1 excellent; 1 very good; 5 good; 4 fair; 1 poor, and 5 had insufficient information to evaluate. (X)

Criminal informants. At time of current inspection there were 31 qualified criminal informants, as compared to 29 at time of last inspection. There were 122 potential criminal informants at the time of this inspection, as compared to 93 at the time of the last inspection. CI's and PCI's were evaluated as follows:

<u>Evaluation</u>	<u>Criminal Informant</u>	<u>Potential Criminal Informant</u>	<u>Total</u>
Excellent	3	1	4
Very Good	5	11	16
Good	20	64	84
Fair	3	11	14
Poor	0	1	1
Insufficient Informa- tion to Evaluate	0	32	32
Totals	31	120	151

Criminal informant coverage well distributed geographically. Weaknesses exist in coverage in Resident Agencies of the following classifications: Theft From Interstate Shipment, Interstate Transportation of Obscene Matter, Interstate Transportation of Lottery Tickets, Interstate Transportation of Gambling Devices. There has been very little information concerning any violations of this nature existing.

At quarter ending 3-20-54 the Seattle Office had developed 1672 plant informants in 222 plants. 70 informants had been developed at the Boeing Airplane Company, which has 35,900 employees. SAC directed to develop additional and "round-the-clock" informants in this plant.

IN AUTO CASE

During fiscal year 1953 Seattle recovered 169 autos (for relative standing of 42nd among all field offices) and obtained 44 convictions. During first 10 months of fiscal year 1954 139 automobiles were recovered (for relative standing of 43rd). During latter period 27 convictions obtained for 19.35%. This percentage is below the average of 28% established for all field divisions (SAC Letter 54-8). Delinquency in this category on June 1 was 36.5%. There were 10 criminal informants, 11 potential criminal informants and 6 confidential sources in position to report data concerning these violations to the office.

During first 11 months fiscal year 1954, 7 convictions have been obtained in White Slave Traffic Act cases. Eight persons are under indictment and presently awaiting trial. Eight more cases are ready for presentation to next grand jury. This situation shows outstanding improvement over total convictions of 2 during fiscal year 1953.

Investigative operations of Seattle Office rated fair in view of delinquency in criminal investigative work and Atomic Energy Act investigations. This situation believed temporary and should be completely relieved by 7-15-54.

ADMINISTRATIVE OPERATIONS.....GOOD

SAC supervises 98 important criminal and security files. 18% delinquency. ASAC John A. Holtzman supervises 436 criminal-type investigations. Had 24% delinquency. SA [] supervised 391 criminal-type investigations. Had 26% delinquency. SA Charles H. DeFord supervises 524 security-type investigations and had 26% delinquency. SA W. Mark Felt supervises 851 applicant-type cases and had delinquency of 46%. Case load, which was 2304 on 6/1/54, will probably decrease by approximately 600 when Atomic Energy Act cases are completed (target date 7/1/54). When this takes place, re-evaluation of supervisory staff should be made and consideration be given to deleting one. It is noted that during inspection Supervisor [] retired from Bureau. Consideration should be given to consolidating his desk with the others presently existing and not replacing him.

Stenographic work current but, as noted above, 5 stenos had been transferred in from surrounding offices for one month "special," beginning 6/7/54, due to increased load of Atomic Energy Act cases. Stenographic production 3.26 pages per hour per stenographer. Typist production 3 pages per hour per typist. Clerical work on current basis.

Time in office for various squads for three-months period of March, April and May, 1954, as follows: (1) Criminal Squad #1 - 16%; (2) Criminal Squad #2 - 13%; (3) Security Squad - 51% (caused by security summary program to be finished by 7/14/54); and (4) Applicant Squad - 14%.

Productivity of Agents. On 6/2/54 average case load of Agents was 21.3 cases and their production in May, 1954, averaged 9.37 cases closed per Agent. Two administrative projects pending Chief Clerk's Office: (1) Consolidation of indices in which 5½ drawers had been completed out of 159 to be done; (2) Consolidation of files which could be completed by one person in approximately one month working full time, but at present rate estimated will be completed in one year.

Of 4000 index cards reviewed, 16 were found to be out of sequence for a delinquency of .4%.

Survey of No. 1 Register for the month of May, 1954, reflected 6 instances where employees failed to indicate when signing out that they were going on sick leave during day and 3 instances where they failed to indicate when signing out that they were going on annual leave during day. SAC directed to bring this to the attention of all personnel. Six errors of minor nature noted on No. 3 Cards for employees for month of May. All corrected.

Communications costs. Average monthly communications costs per Special Agent for the months of July through September, 1953, was \$152.35. For a comparable period of February through April, 1954, it was \$168.59 per Special Agent. SAC directed to reverse this increasing trend.

Criminal statistical accomplishments:

<u>Item</u>	<u>Fiscal Year 1953</u>	<u>First 11 Months Fiscal Yr. 1953</u>	<u>First 11 Months Fiscal Yr. 1954</u>
Convictions	141	134	135
Autos Recovered	169	160	151
Fugitives Apprehended	226	209	236
Savings and Recoveries	\$444,282	\$391,983	\$500,449

The above indicates favorable trend in all except one category - Autos Recovered.

Eligibility list - stenographers and clerks. A control file and an eligibility list box is maintained in Seattle Office in accordance with SAC Letter 113 dated 10-24-52 and SAC Letter 54-29 dated 6-8-54. A review of these at time of inspection reflected no individuals who were then eligible and available for immediate employment. SAC Auerbach explained that eligibility lists have been maintained and are used but was depleted at time of inspection by reason that Seattle Office had to draw on it for 14 new employees during past 4 months. Investigations were under way at time of inspection to replenish this list.

PERSONNEL MATTERSVERY GOOD. ✓

All employees passed examinations with the exception of RCO [redacted] who failed to pass the radio sending test but in view of exceptionally bad atmospheric conditions at the time and in accordance with the recommendation of the SAC, no failure is recorded and the episode is considered "no test." A re-examination will be provided. Morale good. No complaints. Good training programs for both investigative and noninvestigative personnel. Of the 108 Agents in office 33 had not testified in U. S. District Court; 20 had not appeared before Federal Grand Jury; 9 had not been before a U. S. Commissioner; and 25 had not participated in a raid. SAC directed to so assign work that all Agents receive this valuable experience.

b6
b7C

Adequacy of personnel. 108 Agents, including SAC, ASAC and supervisory staff. This number adequate. Three Special

Employees, two of whom work on technical surveillance and one on general assignment. A fourth one lost to office during past year, and SAC feels it would be of benefit to the Bureau to replace him. Inspector feels his replacement not necessary. Two radio operators adequate. 18 stenographers presently in office, and Bureau authority requested to employ two more. This number adequate but not excessive. Two typists. Adequate. 34 clerical employees. Adequate. Clerk-Agent ratio 48.6%.

Overtime. Overtime for Agents for three months of March, April and May was 2 hrs. 24 minutes; for SAC 3 hrs. 1 min.; ASAC 3 hrs. 8 min.; for Supervisor Felt 2 hrs. 51 min.; Supervisors Rich 2 hrs. 18 min., and De Ford 4 hrs. 13 min.

During two months prior to inspection only 4 articles worthy of publication had been submitted to Bureau for "Investigator," indicating poor showing. SAC directed to step up this program.

CONTACTS.....✓.....VERY GOOD

129 SAC contacts: 117 developed by SAC Auerbach and all known to him. One special service contact, who is valuable and was utilized frequently during past year. Very good American Legion program. During 1953 116 speeches were given. Thus far, during the calendar year 1954, 77 have been given. They have been well distributed, both geographically and as to type of audience. Forty National Academy graduates in Seattle territory engaged in law enforcement. 27 are in executive-type positions. During calendar year 1953, 41 police schools given. Thus far in 1954 31 have been given. These consist of all types and were well distributed. Good publicity resulted from it. SAC's relationship with judges, U. S. Attorneys, law enforcement officers, newspapers and influential men in community is excellent.

RECOMMENDATIONS:

1. SAC R. D. Auerbach.....none. Not on probation. Nonveteran. He is an excellent contact man. He has firm grip on administration and investigative operations of his office. The inspection reflected investigative work unusually delinquent but

due in part to Atomic Energy Act program. This situation temporary and should be relieved by middle of July, 1954.

✓

2. ASAC John A. Holtzman. Veteran. Not on probation. 3 errors of substance found on his supervisory desk. 57 errors of form on his desk. He makes a very good appearance, being big and rugged. He is a hard driver and hard worker, ambitious and enthusiastic. He could adequately handle additional responsibilities and should be considered for position of SAC in small office.

✓

3. SA W. Mark Felt. Nonveteran. Not on probation. He handles large volume of work on applicant desk. Has unusual flair for administration. No errors of substance on his desk. 8 errors of form. He makes very good appearance and is thoroughly experienced. Could very adequately handle position of ASAC and should be so considered.

✓

4. SA Charles H. De Ford....none. Nonveteran. Not on probation. He handles security desk and has excellent knowledge of this work. He is a hard worker and puts in large amount of overtime. No errors of substance found on his desk. 60 errors of form found on his desk. He makes very good appearance and is excellent Bureau representative. His greatest asset to Bureau appears to be his knowledge and ability in security field, where he is presently assigned.

✓

5. SA [redacted]none. Nonveteran. Not on probation. He was criminal desk supervisor. He submitted his retirement by letter to Bureau 6-7-54. On June 1 there were 2504 pending cases in Seattle. Approximately 600 of these were Atomic Energy Act cases, which would be completed by approximately 7-1-54. This will lower the case load of the office by that number. It is believed 4 supervisors, including SAC and ASAC, can adequately handle this work. Hence, it is recommended that Supervisor [redacted] not be replaced, this desk be discontinued and work on it absorbed by the other supervisors. b6 b7C

6. It is recommended that the attached letter with instructions and observations concerning the findings of the Inspector be forwarded to SAC Auerbach.

EOD: 1/26/42

Position: Supervisor, Applicant-
Espionage Desk

Classification: GS-13 - \$8560

Mr. Felt is a completely career-type employee who functions with minimum supervision and turns in a completely, all-around, satisfactory job. He is extremely enthusiastic, conscientious and has an excellent basis of Bureau judgment, having served as a Bureau supervisor.

The Bureau has been advised that he can in my opinion function adequately as an ASAC.

b6
b7C

INSPECTOR [REDACTED]: MR. FELT is a thoroughly experienced and mature Agent. He handles the Applicant Desk as a Supervisor and as such handles a large volume of work. No errors of substance were found on his desk during the inspection and 8 errors of form were found. He has handled a rather difficult job with the great influx of AEA cases and handled it well. He has a particular flair for detail.

MR. FELT makes a very good appearance. He handles himself well in speaking to groups of Agents. I had occasion to observe him in this regard during the course of the inspection. He is available for general and special assignment anywhere.

MR. FELT has administrative and executive ability and could quite adequately handle additional responsibility. It is recommended that he be considered for the position of ASAC of a small office.

ADVANCEMENT

During an inspection of the Seattle Office in June, 1954, Inspector [REDACTED] noted that SA Felt was handling his supervisory duties on the Applicant Desk in a highly satisfactory manner. Mr. [REDACTED] said he made a very good appearance, was thoroughly experienced, handled a large volume of work, and could very adequately perform the duties of an ASAC at this time. [REDACTED] recommended that he be considered for further advancement. In this respect it is to be noted that we have properly listed SA Felt for advancement; however, in view of his entry on duty date, he is not at the top of the list.

b6
b7C

The Director saw SA Felt on July 19, 1954, and stated that Mr. Felt makes a very good personal appearance, seems to be intensely interested in his work, and the Director rated him above average.

The attached permanent brief of SA Felt's file reflects that he is 40 years of age, married, and [REDACTED]. He has a Bachelor of Arts Degree and a Bachelor of Laws Degree. He is a member of the United States Supreme Court Bar. He is a native of Idaho and has indicated that any office on the West Coast would be his preference. Dear Mr. Hoover:

This letter is to express my sincere appreciation of your letter of July 15, 1954 in connection with my supervision of the development and handling of a confidential source of information relating to foreign matters. Delay in acknowledgement results from the fact that I have just returned from In-Service and a week's annual leave.

It is very gratifying to receive your commendation and you may be sure of my continued efforts to produce quality work in keeping with Bureau traditions.

Having this occasion to do so, I would like to again express my appreciation for the opportunity to confer with you during my recent In-Service training. It was a real inspiration and I know that I can pass along to the other Agents the enthusiasm which I feel.

Sincerely,

W. Mark Felt

SAC Auerbach while telephonically discussing other matters on September 9, 1954, inquired as to whether or not it would be possible to set back one week the proposed arrival of the above Special Agent to the Bureau on transfer. Mr. Auerbach pointed out that Felt had one or two personal items come up which were unforeseen for disposal of his residence and he estimated it would be sometime during the week of September 13, 1954, before he would be able to dispose of his home and respectfully requested sufficient time to settle these final details in order that he could sever his personal matters entirely prior to leaving Seattle.

I advised SAC Auerbach that this would be satisfactory unless advised to the contrary; however, should Felt complete his personal matters during the week of September 13, 1954, I advised Auerbach that Felt should depart immediately for the Bureau.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee W. MARK FELT Title SPECIAL AGENT
Rating Period: from 1/1/54 to 9/3/54

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
0 No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

RE: W. MARK FELT
SPECIAL AGENT, GS-13

The occasion for this Performance Rating is the transfer of Mr. FELT back to the Bureau again.

Mr. FELT has continued to function as the Applicant and Espionage Supervisor during the entire rating period and is entitled to a Satisfactory rating.

This employee functions exceedingly well in a completely all-around manner. He not only does his own work but in addition is helpful to others and is ever concerned to suggest procedures for the betterment of the Bureau. He has an excellent grasp of Bureau policies, has considerable executive and administrative ability, and there is no question in my mind but that he can successfully function at this time as an Assistant Special Agent in Charge.

I feel that Mr. FELT is a distinct asset to this office and to the Bureau and is to a very, very large extent personally responsible for the very successful handling of the very considerable Atomic Energy Program of this office.

Dear Mr. Felt:

Because of an error made by you in your preparation of a memorandum concerning time spent in the office by the Criminal Squad of the San Francisco Office and because in a letter prepared by you, addressed to SAC Whelan, an erroneous figure was used, the Bureau has been put to additional expense and embarrassment.

There is no acceptable excuse for such an error and the Bureau wishes to express to you its extreme displeasure and instructs that you be more careful in the handling of paper work in the future in order to avoid more drastic administrative action.

Inspector [] was instructed to determine the adequacy of personnel in the San Francisco Office; he submitted a teletype 9/23/54, with his findings contained therein. Line 16, page 1, of the teletype in referring to the General Criminal Squad of the San Francisco Office reports time in office as "sixteen point thirty six percent." Mr. Felt was instructed to prepare a table incorporating the various findings of Inspector [] and he did so in a memorandum from Mr. Harbo to Mr. Tolson 9/24/54. A table in this memorandum shows sixty-six sets of figures; however, the time in the office for the Criminal Squad is shown as 36%. Obviously, Mr. Felt overlooked in his dictation the correct figure which was 16.36%. This same error was carried through by Mr. Felt in a letter to SAC Whelan dated 9/27/54, where the following comment appears: "Particular effort should be made to reduce the time in the office of the Criminal Squad, which was 36%. This squad should be far below the office average."

b6
b7C

SAC Whelan, San Francisco, mentioned to Mason that he felt possibly there was an error in the letter. A recheck of the findings indicate that there was an error and that it was committed by Mr. Felt, as shown above.

RECOMMENDATIONS:

- (1) The attached letter of censure go forth to W. Mark Felt.
2. The attached letter go forth to SAC Whelan, San Francisco.

SA Felt assisted in the inspection of the Records Section, Records and Communications Division, conducted September 27 - October 20, 1954. He was assigned to inspecting the work of the Filing Unit and assisted in inspecting the work of the File Review Unit of the Section.

This was SA Felt's first Seat of Government inspection, and he performed his duties in a very satisfactory manner. He exhibited much industry and enthusiasm in his assignments. His inquiries were conducted in a logical manner, and he exercised good judgment. His paper work was good, and he required but average supervision.

It is recommended that Mr. Felt be transferred to New Orleans as Assistant Special Agent in Charge to replace John H. Williams, who has been transferred to Honolulu as SAC. There is attached a summary of Mr. Felt's file. He has had extensive field experience and was assigned to the Inspection and Training Division on September 20, 1954 as an Inspector's Aide for training and development purposes.

You saw Mr. Felt on July 19, 1954 and stated he made a very good personal appearance, seemed to be intensely interested in his work and you stated you would rate him above average.

I think he has excellent prospects for development. His name is at the top of the list of available qualified personnel for the position of Assistant Special Agent in Charge.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee W. MARK FELT Title SPECIAL AGENT
GRADE GS-13, \$8,560

Rating Period: from _____ to _____

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

RE: W. MARK FELT
SPECIAL AGENT
GRADE GS-13, \$8,560
INSPECTION & PLANNING SECTION
TRAINING & INSPECTION DIVISION
60-DAY PERFORMANCE RATING

Mr. Felt reported for duty in the Training and Inspection Division on September 20, 1954. Since then (he has been used exclusively as an Aide on Seat of Government inspections and incidental thereto has been assigned to surveys and special inquiries at the Seat of Government.)

Because of an error of figures in a communication to the San Francisco Office it was necessary to censure Mr. Felt on October 12, 1954.

Mr. Felt assisted in the inspection of the Records Section under the general guidance of Inspector Frank H. Strong. It was concluded that his work was performed in a very satisfactory manner and that Felt exhibited much industry and enthusiasm in his assignments; inquiries were logical; good judgment apparent; paper work good; only average supervision was required. Thereafter, he assisted Inspector B. C. Brown in an inspection of the remainder of the Records and Communications Division. Inspector Brown reports that Mr. Felt was extremely thorough in carrying out his assignments, displayed tact and diplomacy to an above average degree and is especially well suited for conducting inquiries into delicate matters. Since the censure action mentioned above, he has been especially careful in the preparation of memoranda and his paper work at the present time shows finesse, clarity and completeness.

Mr. Felt (is an above average prospect for advancement and can definitely handle more responsibility than that now assigned to him.)

Mr. Felt is under transfer to New Orleans to assume duties as Assistant Special Agent in Charge of that office; will depart close of business 12/13/54.

Inasmuch as a performance rating was submitted on Mr. Felt under date of 11/23/54, which was quite favorable and reported that Felt was an above average prospect for advancement; was thorough in carrying out his assignments, displayed tact and diplomacy and handled paper work well, an additional performance rating is not being submitted at this time.

RECORDED - 145

It is reported, however, that Inspector B. C. Brown, with whom Felt worked in an inspection of the Records & Communications Division, advised that Felt handled all assignments well and showed above average initiative, dependability, amenability, knowledge of the Bureau's procedures and understanding of Bureau objectives and ways to obtain them. No transfer performance rating is being submitted; Felt has been acquainted with the observations contained in this memorandum.

Mr. W. Mark Felt
Federal Bureau of Investigation

Dear Mr. Felt:

The Bureau has carefully analyzed the facts developed regarding the handling in the New Orleans Division of the receipt of allegations made against unidentified FBI Agents in Washington, D. C., by [redacted] and you are considered to have been derelict in your supervision of this matter. Specifically, it is noted that you were in charge of the office on December 27, 1954, when [redacted] was interviewed by a Special Agent, at which time the fact that his allegations were baseless was not developed although [redacted] upon subsequent interview by agents of another division admitted that his charges were entirely unfounded. You should have seen to it that the interrogation of this complainant was handled with sufficient initiative and thoroughness to have arrived at the truth without unnecessary delay.

b6
b7C

Furthermore, when you revised the New Orleans communication to the Bureau dated December 29, 1954, setting forth [redacted] allegations you neglected to see to it that reference was made therein to the fact that [redacted] had been previously interviewed at the Baton Rouge Resident Agency on December 23, 1954.

b6

It will be incumbent upon you hereafter to handle your supervisory responsibilities with greater efficiency so that there will be no repetition of the shortcomings mentioned above.

As reflected in the attached memorandum of the Investigative Division of 2/7/55 [REDACTED], a deaf-mute and alleged homosexual, complained to the New Orleans Office on 12/27/54 that while in Washington, D. C., to assist a friend who had been hurt in an automobile accident, [REDACTED] was picked up by 2 FBI agents, questioned 7 hours and sent back to New Orleans. On 1/18/55 [REDACTED] signed a statement admitting these allegations were a complete hoax. U. S. Attorneys at New Orleans and District of Columbia declined prosecution on Giving False Information Violation. On 1/21/55 Washington Field Office advised the Bureau [REDACTED] had stated he initially made his complaint to the Baton Rouge Resident Agency on 12/21/54 before making it to the New Orleans Office on 12/27/54.

b6
b7C

SAC, New Orleans, has advised that on 12/23/54 [REDACTED] and his mother were interviewed by SA Heatherly at Baton Rouge Resident Agency, the mother acting as interpreter and SA Heatherly taking copious notes. During the interview [REDACTED] appeared evasive to his mother's questions and some confusion arose as to a long-distance telephone call from Washington, D. C., which resulted in [REDACTED] trip to Washington. [REDACTED] suggested she go to New Orleans and clarify the matter and then contact the New Orleans Office. Accordingly, SA Heatherly forwarded his notes by routing slip to the New Orleans Office and arrangements were made to continue the interview of [REDACTED] and his mother which was done on 12/27. SAC, New Orleans, advises that SA Heatherly's notes were received by ASAC Felt on 12/27/54 whereupon Felt referred them to an agent and instructed that if the [REDACTED] called at the office they should be interviewed and the issues resolved but if they did not call within a day

an attempt should be made to locate them and obtain the facts. SAC Chiles advised that the practice of sending notes from resident agencies to the field office is not a usual one in his office, he has admonished SA Heatherly and recommends that Heatherly be censured for failure to reduce his interview to memorandum form. SA [] interviewed the [] at New Orleans on 12/27 and prepared a communication to the Bureau setting forth their allegation against Washington agents. SA [] had SA Heatherly's notes while handling the matter but did not include in the letter the fact that the [] had initially been interviewed at the Baton Rouge Resident Agency on 12/23. ASAC Felt made some revisions in the outgoing letter and SAC Chiles initialed it.

Several Bureau requests of pertinent information were necessary before complete facts were received by teletype of 2/4/55.

RECOMMENDATIONS:

b6
b7C

(1) SAC Chiles, New Orleans, recommended that SA Heatherly be censured for failure to reduce notes of [] interview to memorandum form. Investigative Division concurs, also recommending that the censure include criticism for not thoroughly interviewing [] in order that the Bureau could be advised at the outset of allegations against Bureau agents. Mr. Boardman concurred with the Investigative Division.

b6
b7C

The Administrative Division recommends no action against SA Heatherly since full and accurate details could not be obtained during the Baton Rouge interview of 12/23/54 and SA Heatherly arranged for the [] to secure clarifying information in New Orleans and then report to the New Orleans Office. SA Heatherly sent his notes of the interview to the office and they were actually utilized when the second interview was conducted, on 12/27/54, the next working day after the 3-day Christmas holiday.

b6
b7C

(2) Investigative Division also recommends that SA [] be censured for failing to interview [] with sufficient thoroughness.

to establish the falsity of his allegations and for failing to include in the letter to the Bureau of 12/29/54 the fact that SA Heatherly had previously interviewed the [redacted] at Baton Rouge on 12/23/54. Mr. Boardman concurred.

The Administrative Division concurs.

(3) The Investigative Division recommended that ASAC Felt be censured for failing to properly supervise this matter and for not including the details of the 12/23/54 interview when he revised the New Orleans letter to the Bureau of 12/29/54. Mr. Boardman concurred.

The Administrative Division concurs.

(4) The Investigative Division recommends that SAC Chiles be censured for his failure to fulfill his responsibility in immediately obtaining all details surrounding the agents' derelictions in this matter. Mr. Boardman concurred.

The Administrative Division recommends that SAC Chiles be censured for the over-all mishandling of this matter in the New Orleans Division.

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
0 No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

Mr. Felt was assigned to the New Orleans Division as the Assistant Special Agent in Charge on December 17, 1954. He dresses neatly, makes a good business-like appearance, has a pleasant personality, gets along well with fellow employees, and has developed rapidly as a leader.

As the Assistant Special Agent in Charge, he has supervised general criminal work and has accepted the responsibility of taking charge of the office in the absence of the Special Agent in Charge. He is aggressive, handles a large volume of work, and has gained the respect of the agents assigned to this division. He is capable of handling the more complicated types of investigations, has personally and successfully led a raid involving an extremely dangerous fugitive. I have been with him in the apprehension of a dangerous fugitive, and he performs well on this type of assignment. He is an excellent speaker, and many complimentary remarks have been received concerning his appearances. He contributes an above average amount of voluntary overtime, has shown a keen interest in his work, and has definite possibilities for further advancement.

Mr. Felt has demonstrated both executive and administrative ability and is entitled to the rating of satisfactory as Assistant Special Agent in Charge.

Censure of SAC Morton P. Chiles, New Orleans, for failure to immediately obtain full facts of Agents dereliction in reporting complaint as requested by Bureau.

b6
b7C

[redacted] deaf-mute, on 12/27/54 made complaint to New Orleans Office that while in Washington, D. C., he was questioned by two FBI Agents. [redacted] admitted to Washington D. C. Office (WFO) allegations complete hoax. Facts presented to U. S. Attorney and prosecution declined. WFO advised 1/1/55 [redacted] made same complaint to Baton Rouge Resident Agency (RA) on 12/21/54 as he did to New Orleans Office on 12/27/54.

b6
b7C

On 1/21/55 SAC Chiles, New Orleans, instructed to obtain facts surrounding interview and why interview not reported. By letter 1/24/55 SAC Chiles advised [redacted] and mother interviewed. Baton Rouge RA 12/23/54 by SA Heatherly. During interview, [redacted] mother acted as interpreter, [redacted] evasive to questions and confusion caused [redacted] to proceed to New Orleans to clarify certain issues through [redacted] employer. [redacted] said New Orleans Office would be contacted after Christmas holidays. SA Heatherly forwarded notes of interview by routing slip to New Orleans Office to assist in interview. On 12/27/54 [redacted] and mother interviewed New Orleans Office and Bureau advised by letter 12/29/54.

b6
b7C

On 1/26/55 SAC Chiles requested to submit explanations concerning procedure of forwarding Agent Notes to New Orleans Office by routing slip. On 1/28/55 SAC Chiles advised Heatherly's notes received by ASAC Felt on afternoon of 12/27/54 and instructed [redacted] be interviewed and issues resolved. ASAC Felt revised letter of 12/28/54 advising Bureau of complaint; however, did not include interview of [redacted] 12/23/54. SAC Chiles advised it was not the practice of RAs in New Orleans Division to send notes to Headquarters City by routing slip. Could recall no other similar instance. [redacted] admonished Heatherly and recommended

he be censured for failure to reduce notes in memorandum form. SAC Chiles failed to point out if [redacted] had benefit of Heatherly's notes when [redacted] interviewed. In response to Bureau inquiry on 2/4/55, Chiles advised [redacted] did have notes, who through inadvertence failed to include interview of [redacted] in letter to Bureau on 12/29/54. SAC Chiles stated he was not in New Orleans on 12/27 and 28/54 and had no knowledge [redacted] interview until he initialed outgoing letter to Bureau on 12/29/54.

RECOMMENDATIONS:

1. SA Heatherly be censured, as recommended by SAC Chiles, for submitting notes of [redacted] interview by routing slip instead of preparing field complaint form as Bureau regulations require and for not thoroughly interviewing [redacted] in order that the Bureau could be advised at the outset of allegations against Bureau Agents.

2. SA [redacted] be censured for failure to include details of 12/23/54 interview of [redacted] by Heatherly in letter of 12/29/54 and for not thoroughly interviewing complainant.

b6

3. ASAC Felt be censured for failure to properly supervise this matter and for not including details of 12/23/54 interview when he revised the outgoing letter submitting complaint to the Bureau.

4. SAC Chiles be censured for the failure to fulfill his responsibility in immediately obtaining all details surrounding Agents' dereliction in failure to properly report to the Bureau complaint received by Heatherly on 12/23/54.

Action taken on basis of memo forwarded to Mr. Rosen 2-9-55, (67-104655-205)

Memorandum to Mr. Rosen

DETAILS:

[redacted] deaf-mute, alleged homosexual, appeared at the New Orleans Office with his mother and two associates on 12/27/54, made complaint to the effect he had received a telephone call on 12/17/54 through his superior at [redacted], requesting [redacted] come to Washington, D. C., to assist a friend, [redacted], who had been hurt in an automobile accident. [redacted] alleged while in Washington, he was picked up by two FBI Agents, questioned seven hours, and sent back to New Orleans. In subsequent investigation, [redacted] gave signed statement to Agents of the Washington Field Office (WFO) admitting allegations against Agents were complete hoax and gave story to angered mother to cover up trip to Washington. Facts presented to U. S. Attorney (USA) New Orleans and District of Columbia, who declined prosecution on Title 18, Section 1001 (Giving False Information, U. S. Code). On 1/21/55, WFO advised in interview of [redacted] he alleged he made the same complaint to the Baton Rouge Resident Agency (RA) on 12/21/54 as he had made to the New Orleans Office on 12/27/54. b6 b7C

By teletype 1/21/55, SAC New Orleans instructed to obtain facts concerning the alleged complaint given by [redacted] to Baton Rouge RA. By letter dated 1/24/55, SAC Chiles, New Orleans, advised that [redacted], mother of [redacted], telephonically contacted the Baton Rouge RA and requested an appointment. On 12/23/54, she and her son appeared at RA and were interviewed by SA Von Perry Heatherly, [redacted] acting as interpreter, at which time Heatherly took copious notes. [redacted] during the interview, appeared evasive to mother's questions, and there appeared to be some confusion as to the long-distance telephone call from Washington, D. C., to [redacted] which was taken by [redacted]. In view of confusion in mind of [redacted], she suggested that she proceed to New Orleans and after clarification of long-distance call through [redacted], she would contact the New Orleans Office. SA Heatherly then forwarded his notes by routing slip to the New Orleans Office and arrangements were made to continue the inquiry upon the arrival of [redacted] and her son in New Orleans. b6 b7C

At 4:00 p.m., 12/27/54, [redacted] and her son, together with [redacted], another deaf-mute, and [redacted] arrived at the New Orleans Office and were interviewed by SA [redacted]. b6 b7C

By teletype 1/26/55, SAC New Orleans requested to submit detailed explanations from SA Von Perry Heatherly, supervisory personnel, and himself concerning the procedure surrounding [redacted] interview and the forwarding of Agent's notes to the New Orleans Office. The Bureau asked if it was a usual practice to forward notes without memorandum and as to why action was not taken to immediately notify the Bureau regarding [redacted] allegations against Bureau Agents. b6 b7C

Memorandum to Mr. Rosen

By teletype 1/28/55, SAC New Orleans advised that in interview of [redacted] by SA Heatherly at Baton Rouge RA on 12/23/54, [redacted] became agitated over her son's evasive attitude about his alleged trip to Washington, and she suggested that she proceed to New Orleans after the Christmas holidays and attempt to obtain more specific information. SA Heatherly's notes of the interview were forwarded to the New Orleans Office by routing slip for the benefit of the Agent who would conduct interview of the [redacted] when they arrived at the office after the Christmas holidays. These notes were received by ASAC W. Mark Felt on the afternoon of 12/27/54, at which time he handed them to an Agent and instructed that if [redacted] called at the office, the interview should be definitely conducted and the issues resolved and that if she did not call at the office within a day, an attempt should be made to locate her and obtain facts. SAC Chiles advised that the practice of sending notes from the RA to field office was not a usual practice in his office and he could recall no other similar instance. He advised that he admonished Agent Heatherly and recommended that Agent Heatherly be censured for failure to reduce his interview to memorandum form. ASAC Felt advised that on late afternoon 1/27/54, this matter again came to his attention when the outgoing communication to the Bureau covering the interview came across his desk, at which time he revised the letter. ASAC Felt failed to have the interview of [redacted] on 12/23/54 included in this letter. In response to Bureau inquiry, on 2/4/55, SAC Chiles said he was away from Headquarters City on 12/27 and 28/54 and had no knowledge of the interview of [redacted] until the communication came across his desk for initialing. Chiles said [redacted] did have the benefit of Heatherly's notes, who through inadvertence, failed to make reference to them in the letter of 12/29/54, advising the Bureau of [redacted] complaint.

By letter 2-25-55 New Orleans forwarded a manuscript prepared by SA [] and requested that [] be approved as a general police instructor. Bulet 3-2-25 advised New Orleans that [] manuscript would be reviewed but that prior to considering the request Bureau desired that instructions set forth in SAC Letter 54-32 be complied with. That SAC Letter lists the conditions under which Bureau will approve additional police instructors and contains instructions relative to the auditing of lecture by the Agent based on his manuscript.

b6
b7C

By letter 3-7-55 New Orleans furnished information as to the need for additional police instructors but failed to furnish data as to [] delivery of his lecture. By Bureau letter 3-14-55, New Orleans was advised that the manuscript had been approved. It was pointed out that New Orleans had failed to furnish information regarding [] lecture. SAC Chiles was instructed to forward that information and to obtain explanations from individuals responsible for failing to comply with Bureau instructions.

b6
b7C

By letter 3-16-55 Chiles explained that ASAC Felt had handled the matter, that Felt was of the opinion that [], who was being considered as a potential police instructor, was to be given additional training after which his lecture would be monitored and the Bureau notified. Chiles recommended no action against Felt.

OBSERVATIONS: Although New Orleans by Bulet 3-2-55 was specifically instructed to comply with the SAC Letter's instructions and their failure to do so has caused additional correspondence, it is believed that Felt's position has some merit to it. The SAC Letter refers to training potential police instructors which could be interpreted to mean that the information

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

Assistant Special Agent in Charge

EOD; 1/26/42

EOD NEW ORLEANS: 12/17/54

GS-13, \$8,760.00

Mr. Felt is the Assistant Special Agent in Charge assigned to the New Orleans Division. He dresses neatly, makes a good personal appearance and has a pleasant personality. He is a mature, conscientious employee and capable of handling the most complicated types of investigative matters. I have been with him on a raid and he performs excellently on this type of dangerous assignment. He has also led and organized raids in a most effective manner.

By letter dated February 17, 1955, the Director censured Mr. Felt for the manner in which he supervised the interrogation of a deaf mute by the name of [REDACTED].

b6
b7C

Mr. Felt has had experience in testifying in Federal Court, and he capably performs as a witness. As the Assistant Special Agent in Charge, he has shown initiative and has taken appropriate action on his own responsibility. He is an excellent speaker and capably meets other law-enforcement officers as well as prominent businessmen of the community, thereby carrying on an effective public relations program for this office.

In his capacity as Assistant Special Agent in Charge, he has demonstrated both executive and administrative ability and has very definite possibilities of further advancement in the service of the Bureau. With his excellent knowledge of Bureau policies and procedures, Mr. Felt is a most capable Inspector's Aide and can be utilized as a Number One Man on inspections.

Reference is made to the Bureau's memorandum of March 9, 1955, requesting an explanation for certain errors appearing in the report of SA A. HARRY ROBERTS dated 2/21/55.

The above case was under the supervision of ASAC W. MARK [redacted] and instant report was approved by him. SA ROBERTS has advised there were approximately 4,000 one-dollar bills recovered in instant robbery, and that the personnel assigned to the investigation was working almost on a twenty-four hour a day basis attempting to pursue a great many urgent matters in collecting and obtaining the evidence. He stated that he made a very conscientious effort to adequately count the money when it was originally recovered, and that the first count was considered by him as a tentative one. The money was later placed in sequence and the count was made by SA [redacted], together with officials of the Bossier Bank and Trust Company.

SA ROBERTS advises that the parole report figure should read \$10,827, and the report referred to in referenced communication should be changed to reflect this figure.

With reference to the verification of the payment to the American Loan Company, SA ROBERTS advised that at the time it was his opinion that no benefit would be achieved from such investigation. He pointed out that the payment to the First National Life Insurance Company was verified.

RECOMMENDATION

From the above, it is apparent that errors were made, both in the investigative and the parole reports, of SA A. HARRY ROBERTS. Because of these errors, it is recommended that he be censured by the Bureau to use more care in investigative matters and in his report.

NOTE: See Investigative Divisions recommendation on page 1A.

FEDERAL BUREAU OF INVESTIGATION

MAR 16 1955

b6
b7C

Original count of money did not tally with later count. There was a \$2.00 error. Also parole report reflected incorrect amount.

SAC NEW ORLEANS RECOMMENDATION:

Recommends censure for SA A. Harry Roberts who was responsible for not setting forth correct count of money in report and parole report.

INVESTIGATIVE DIVISIONS RECOMMENDATION:

Recommend censure for SA A. Harry Roberts.

ADDENDUM: 3-30-55:

No administrative action is recommended for ASAC W. Mark Felt who initialed reports and supervised this case inasmuch as it would have been impossible for him to have detected that the amount shown in the parole report was incorrect unless he reviewed all sections of the file before signing mail in this matter. In so doing he would have duplicated the work of Special Agent Roberts who is responsible for correct data in reports dictated by him.

SECURITY MATTER - C
INTERNAL SECURITY ACT OF 1950

Reference is made to Bureau memorandum of April 1, 1955, which made reference to the report of SA J. WOODROW GILMORE dated March 14, 1955 at New Orleans. A review of this file reflects that this report was reviewed and approved by ASAC/W. MARK FELT. As instructed by the Bureau, amended pages are being prepared for appropriate substitution in this report to reflect the Bureau's most recent sketch of the Progressive Party and to incorporate a complete historical sketch of the Progressive Party on a local level.

SA GILMORE explained these errors as follows:

1. T-2 advised in rerep, "In 1949 subject attended several Progressive Party meetings in New Orleans which were dominated by the Communist Party leaders and functionaries." It is noted the informant neither stated nor is in a position to state that the subject was a member of the Progressive Party. The subject was merely known by the informant to have attended certain meetings in 1949 which the informant characterized as "Progressive Party meetings which were dominated by Communist Party leaders and functionaries." It was felt that this sketch of the meetings was sufficient. We have no other individual or informant who saw the subject at these particular meetings or who might better characterize or sketch these particular meetings.

A complete historical sketch of the Progressive Party on a local level has been prepared and incorporated into the amended pages. It may be noted this sketch is cumulative and in line with the local sketch of the 1949 meetings given by the informant.

2. SA GILMORE states that he now recalls that the Bureau had furnished a more recent sketch of the Progressive Party but he inadvertently overlooked the use in his report of the more recent sketch. The matter has been corrected and he has given every assurance that it will not again occur.

It would appear that the sketch of the Progressive Party at the national level which was used by SA GILMORE is one which has been used for a number of years and which has appeared in a number of investigative reports. In view of the fact that SA GILMORE's initials had appeared on the report, it is not believed that ASAC FELT should have necessarily caught this error when he approved the report. Accordingly, no administrative action is being recommended concerning him. In view of the fact that SA GILMORE is assigned to the Security Squad, it appears that he should have been up to date on this matter and it is recommended that consideration be given to censure by the Bureau.

SECURITY MATTER - C

Reference is made to the Bureau's memorandum of April 12, 1955, pointing out the errors in the report of SA [redacted] dated March 31, 1955, at New Orleans, Louisiana.

b6
b7C

A review of this file reflects that the report of SA [redacted] had been reviewed and initialled by him, and that it had been initialled by Assistant Special Agent in Charge W. MARK FELT.

b6
b7C

SA [redacted] advises that the information attributed to T-7 and T-8 on page three of instant report should have been shown as T-6 and T-7. Designation of T-6 and T-7 should have been followed by a new paragraph stating, "The following sources have advised that they are not aware of any of the subject's contacts in the [redacted] Louisiana Area other than neighbors and business people with whom the subject appears to have had the normal necessary association."

b6
b7C
b7D

SA [redacted] states he has no explanation to offer for this confusion of informants or the omission of the paragraph to which the information from T-8 and T-9 is attributed. He stated he had done considerable dictation on this date and apparently was confused as to the proper designation of informants. He further advised that he is aware of the absolute necessity for accuracy, and that every effort will be made on his part to avoid such errors in the future. Amended pages have been prepared by SA [redacted] and appropriate corrections will be made. It should be noted that the report was not disseminated outside the Bureau.

b6

Both SA [redacted] and ASAC FELT have been admonished for these errors and both state that every effort will be made to avoid such delinquencies in the future.

It is recommended that SA [redacted], who is primarily responsible for the errors, be censured by the Bureau.

Reference is made to the Bureau's memorandum of April 5, 1955, pointing out errors in the report of SA [redacted] dated March 24, 1955, at New Orleans. b6 b7C

A review of this file reflects that this report was read and approved by ASAC W. MARK FELT. I have discussed these errors with SA [redacted]. SA [redacted] states that these errors are regretted and that every effort will be made to avoid such delinquencies in the future. Amended pages are being prepared for this report. b6 b7C

ASAC FELT approved this report in my absence, it being noted that his desk handles primarily criminal violations and the various ramifications of security work are outside of his usual duties. He has advised me that in the future every effort will be made to avoid such errors in any investigative report initialed by him. Both ASAC FELT and SA [redacted] have been reprimanded for these delinquencies. b6 b7C

It is recommended that SA [redacted], who is assigned to the Security Squad, be censured by the Bureau for the delinquencies noted. b6 b7C

5-5-55

The New Orleans office submitted a report in this case dated 3-24-55 which, upon review at the Bureau, was found to contain four discrepancies. By letter dated 4-5-55, the Bureau instructed the SAC, New Orleans, to obtain explanations from responsible personnel and forward same to the Bureau together with his recommendations regarding administrative action. Two of the discrepancies referred to above are explained in a separate communication from the New Orleans office, handled separately, and found not to be in error. The other two discrepancies, found to be in error, were: (1) failure to cite the source for a list of the subject's contacts; and (2) failure to identify a source in the Administrative Section.

By letter dated 4-11-55 the SAC in New Orleans has advised that both the agent who prepared the report, SA [REDACTED], and the Supervisor who approved this report, ASAC W. Mark Felt, have acknowledged the errors in question and have stated that every effort will be made to avoid such errors in the future. The SAC, New Orleans has advised that [REDACTED] and Felt have been reprimanded for the errors in question and has recommended that SA [REDACTED] be censured. The SAC, New Orleans has not recommended any further administrative action against ASAC Felt, pointing out that Felt normally supervises criminal cases at New Orleans and that therefore the various ramifications of security work are outside his usual duties.

The Domestic Intelligence Division recommends that a letter of censure be delivered to SA [REDACTED] for improper preparation of the report in question and that a letter of censure also be delivered to ASAC Felt in view of his failure to detect the errors in the report.

Dear Mr. Felt:

Careful consideration has been given to your coordinating and planning a surveillance in connection with an attempted apprehension on May 16, 1955, of [redacted] subject of an Interstate Transportation of Stolen Motor Vehicle investigation. It is evident that you did not properly discharge your responsibilities in this regard inasmuch as an exit from the public park in which the subject was present was left unguarded and he was thereby able to effect his escape through that exit.

Accordingly, you will be expected to handle any similar situations which may arise in a more effective manner and with greater consideration for the best interests of the Bureau.

Dear Mr. Felt:

You approved a report dated March 31, 1955, in the Internal Security investigation involving [redacted] although this report contained an inadequate documentation for the government of another nation and failed to list the source of certain descriptive data regarding the subject. In addition, background data pertaining to the subject was poorly organized.

New Orleans letter of 5/16/55 contained explanations for errors appearing in report of SA [redacted] dated 3/31/55 in the Internal Security investigation involving [redacted]. This report was approved by ASAC W. Mark Felt. Upon review of this report at Seat of Government, [redacted], it was found to contain a number of errors. These errors were: (1) Inadequate documentation (characterization of the former [redacted] without showing source or elaborating. (2) Failure to list source of descriptive data regarding subject. SAC H. P. Chiles, New Orleans, advised that the report in question has been rewritten and the errors corrected. He pointed out this report was one of several reports written by SA [redacted] and approved by ASAC Felt which were prepared hurriedly during the latter part of March, 1955, in an effort to reduce New Orleans' delinquency. He has reprimanded both SA [redacted] and ASAC Felt for the errors noted by the Bureau and has advised that they have no excuse in this matter other than their haste to bring several matters out of delinquency status. He pointed out further that both Felt and [redacted] have been previously censured for errors in reports prepared by SA [redacted] in late March, 1955. However, he recommended that the Bureau again consider censuring SA [redacted] and ASAC Felt in connection with instant matter. Domestic Intelligence Division, Mr. Boardman concurring, recommended that ASAC Felt and SA [redacted] be censured for the substantive errors listed above.

Assisted me 6/10, to 6/18/55 in Houston Inspection. He inspected RAs, prepared administrative memoranda, and assisted in the investigation of a special personnel matter.

This was ASAC FELT's ninth participation in field inspection duties. He took hold well, demonstrated a most constructive approach, and demonstrated an overall knowledge of policies and procedures. He evidenced above average analytical competence, functioned very industriously and turned out paper work of very high quality. He displayed aggressiveness, resourcefulness, and initiative, and exercised sound judgment. His work required practically no supervision. His attitude was excellent, he was fully cooperative and he willingly shared the burden of the extra work load.

ASAC FELT EOD 1/26/42 and has served at the Seat of Government and in 4 field divisions, including New Orleans, his present post of assignment, where he is presently the Assistant Special Agent In Charge. He makes an excellent personal appearance and has a pleasing personality. He appears to be in excellent health and emotionally stable. He has definite administrative and leadership ability. He is available for general and special assignment, and is desirous of advancing in the Bureau's service along administrative and executive lines.

INTERNAL SECURITY - R and GUATEMALA

Reference is made to the Bureau's memorandum of May 3, 1955, listing the errors and delinquencies in the report of SA [redacted] dated March 31, 1955, at New Orleans.

b6
b7C

A review of this file reflects that this report was approved and initialled by ASAC W. MARK FELT. This report has been rewritten and the noted delinquencies have been corrected. A copy for INS, New Orleans, has been substituted for the original copy furnished to that agency and the original copy has been obtained and destroyed.

This report is one of several reports written by SA [redacted] and approved by ASAC W. MARK FELT, which were prepared at the end of the month of March in an effort to remove several cases in the security category from a delinquent status. In a rush to get this material out on the last day of the month, a number of errors were made by SA [redacted] in the reports which were not caught by ASAC FELT. Both have been censured previously by the Bureau. Referenced report is the fourth instance in which errors have been observed in reports originating at this office at that particular time.

b6
b7C

I have reprimanded both ASAC FELT and SA [redacted] for allowing these delinquencies. With the previously mentioned letters of censure, this matter has been forcefully brought to the attention of both men. They have no excuse in instant matter other than their hurried effort to record a great amount of investigative effort to bring several matters out of a delinquent status. Both ASAC FELT and SA [redacted] fully realize at this time that quality must come before quantity.

b6
b7C

It is recommended that the Bureau consider again censuring Mr. FELT and [redacted].

Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI
FROM : SAC, NEW ORLEANS (1-335)
SUBJECT: POLICE TRAINING SCHOOL - FINGERPRINT
NATCHEZ, MISSISSIPPI

DATE: June 21, 1955

Reference is made to the Bureau's memorandum of 6/16/55, instructing that this office furnish the reason for the failure to advise the Bureau concerning the above proposed fingerprint school thirty days prior to the date thereof.

This file reveals that the New Orleans memorandum dated 6/13/55 advised the Bureau of the fingerprint school at Natchez, Mississippi, for July 5 to 8, 1955. The file further reflects that on May 17, 1955, SA [redacted] advised that several police administrators in the vicinity of Natchez, Mississippi, had requested a fingerprint school in that area, and that it had been agreed among these officers that the school should be from July 5 through July 8, 1955. b6 b7C

This memorandum was routed to SA ROBERT E. LEE, who has been assigned to coordinate the police schools in this division, at which time he rough drafted a memorandum to the Bureau, setting out the proposed schedule and designating SA JAMES E. SCHMIDT, Jr. as instructor. This rough draft memorandum was reviewed by ASAC W. MARK FELT, who found that the work load of SA JAMES E. SCHMIDT, Jr. was extremely heavy in view of the number of urgent accounting cases in the office, whereupon he returned the rough draft to SA LEE, suggesting that SA [redacted], another fingerprint instructor, be contacted for the purpose of determining whether his commitments would allow him to handle this school. b6 b7C

SA LEE was on leave between 5/26/55 and 5/31/55, and found this memorandum upon his return with a notation to discuss the matter with ASAC FELT. In the meantime, ASAC FELT was on a speaking tour in Southern Louisiana and did not return until June 2, 1955. It was determined by SA LEE in the meantime that SA [redacted] could handle this school, and after discussing the matter with ASAC FELT, the rough draft was changed and sent through for typing. b6 b7C

The stenographer received this rough draft on June 6, 1955, and because of stenographic congestion, the memorandum to the Bureau was not typed until 6/13/55.

From the above, it appears that the invitation to conduct the proposed school was received in sufficient time; however, because of the problem which arose as to the instructor to conduct the school, SA [redacted] being at Shreveport, Louisiana, a delay was unavoidably experienced. The delay was further aggravated by the fact that the stenographic situation was congested at that particular time. b6 b7C

Both ASAC FELT and SA LEE have been cautioned to observe the thirty-day notice concerning police schools. Every effort will be made to avoid such delinquencies in the future. No further administrative action is recommended in view of the above situation, and for the reason the delay caused no embarrassment to the Bureau.

I am highly pleased with the accomplishments of the New Orleans Division during the fiscal year 1955 in criminal matters and I am aware that the excellent results achieved can be directly attributed to your competent supervision of these cases.

You should indeed be proud in the knowledge that the effectiveness of your over-all supervision has resulted in a greatly increased number of convictions in this field. It is a pleasure to commend you for your tireless efforts in this direction.

CONVICTIONS

67-915-1697
A review of the relative standing of the field divisions as of June, 1955, reveals that the New Orleans Division during the fiscal year 1955 handled cases in which there were 414 convictions. This number of convictions placed the New Orleans Division the second highest among all the Bureau's divisions, and was an increase of 26 over 1954, an increase of 84 over 1953, and an increase of 125 over 1952.

This excellent achievement has been brought about by the close supervision and outstanding work of ASAC W. MARK FELT and Supervisor G. MYRYWIN ALDERSON, who handle a majority of the criminal matters in this division. Their performance in this field is particularly significant in view of the fact that approximately twenty per cent of the personnel of this office has been utilized on security investigations where no convictions are reflected.

Accordingly, it is recommended that the Bureau commend ASAC FELT and Supervisor ALDERSON for the manner in which they have supervised criminal investigations during the past year, bringing about these excellent results as far as convictions are concerned.

DETAILS

Agents New Orleans Office instituted surveillance 5/16/55 to effect arrest of [redacted]

[redacted]. Before [redacted] able to meet [redacted], latter fled from park in car, later determined to be stolen, as one of surveilling cars approached area. [redacted], who escaped from a [redacted] prison camp [redacted]/55, eluded pursuing Agents on main thoroughfare adjoining park when Agents had to decrease speed of their car to avoid jeopardizing life and property. b6 b7C b7D

Above information furnished in New Orleans teletype of 5/17/55. On same date New Orleans instructed to furnish complete details of incident together with memoranda of explanations from participating Agents and recommendations as to administrative action. In teletypes of 5/17, 18/55, supported by memoranda from participating agents, SAC, New Orleans, advised [redacted]

[redacted]. Surveillance put on [redacted] as [redacted]. SAC Chiles was personally supervising investigation of bank robbery which occurred at 1:30 p.m. at [redacted], Louisiana, on afternoon of this date. ASAC was in office coordinating road blocks and handling liaison with state and local police in Louisiana and Mississippi on bank robbery and coordinating and planning surveillance. [redacted] b6 b7C b7D

In the meantime, car number one, containing two Agents, took concealed position in park to view bus loop and block exits from park to north and west. Car number two, with two Agents, surveilled a public phone booth which subject had used to make earlier call to [redacted]. Car number three surveilled [redacted].

After [redacted], car number two left phone booth surveillance and joined car number three surveilling [redacted]. When Agents in both cars satisfied subject not [redacted], car number three immediately proceeded to park, leaving car number two to continue surveillance of [redacted]. Agent [redacted], designated as Agent in charge of surveillance, was in car number three. This car proceeded to previously selected parking area adjoining park swimming pool where bus loop and park bus stop could be observed. As Bureau car number three entered parking area, Agents in this car observed subject in a black Chevrolet, who at that moment drove his car at a high rate of speed across park lawn, jumping a curb and coming out on [redacted]. Agents pursued subject, taking same route and advising other cars of situation. At this point, radio transmission from this car became garbled and for approximately 60 seconds neither of the other cars were able to understand transmission. b6 b7C b7D

p to this point radio transmission from this car had been good. It was subsequently determined that a tube in radio transmitter had apparently shorted out when this car jumped curb following subject. Approximately one minute after Agents in car three began pursuing subject, other cars were able to detect words "[redacted] Street toward [redacted]" and immediately proceeded in that direction, assuming car number three had located and was pursuing subject. Transmitter in car number three (the key car) became permanently inoperative after first few unintelligible garbled messages. b6 b7C

At time subject fled from area, car number two was still surveilling [redacted] as bus had not yet reached park. This car was not then in position to block east exit from park as had previously been planned. Car number one was blocking exits to north and west and did not observe activity of subject's car and car number three. This car, (car number three) the only one having observed subject, pursued him to [redacted], a main thoroughfare, where Agents were forced to decrease speed to avoid jeopardizing life and property. Subject made two turns, the second not within view of Agents. He abandoned car on dead end street and fled on foot. His car located five minutes after abandonment by one of surveilling cars and immediate search of surrounding area by Agents and New Orleans Police failed to result in location of [redacted]. SAC Chiles recommended no administrative action, stating "failure to apprehend [redacted] directly attributable to failure of radio transmitter." b6 b7C b7D

OBSERVATIONS:

[redacted] is [redacted] public park. As SAC Chiles stated, radio transmitter in car number three apparently rendered inoperative when car had to jump curb pursuing subject. At all times prior to this incident, car radio had worked satisfactorily. Malfunction of car radio after this incident caused a minute delay before other two cars could understand Agents in car three and at that time only heard words "[redacted] Street toward [redacted]." These cars then proceeded in that direction. It would appear, however, that subject would not have observed activity which caused him to flee if car number three had approached parking area in a cautious manner. Car number three occupied by Agents Robert E. Lee and [redacted], the latter in charge of surveillance. Further, surveillance plan called for car number two, surveilling [redacted], to block east exit from park. The fact that [redacted] fled through this exit, which was not blocked from the outset, indicated improper planning. Car number one occupied by Agents Charles R. Carson and Sims F. Regard. Car number two occupied by Agents [redacted] and Will Hayden Griffin. b6 b7C b7D

Dear Mr. Felt:

You initialed for file a memorandum dated February 25, 1955, which set forth derogatory information concerning a Deputy United States Marshal and also recommended that the source of this information not be contacted further because of her unreliability. INSPECTOR AIDES

Listed below are the Agents assigned to your division who are active Inspector Aides. You should not offer for an inspection assignment any other Agent who may have been formerly an Inspector Aide. This list is subject to change inasmuch as the Bureau is constantly seeking to retain only the best qualified men for Inspector Aide duties and does not desire to use as Aides men who do not wish to advance administratively or men who have been subjected to recent serious administrative action. If any of the Aides listed below do not wish to advance administratively you should forthwith advise the Bureau. Your communication should be marked for the attention of the Training and Inspection Division.

ASAC W. MARK FELT assumed duties of the Assistant Special Agent in Charge of this division on December 19, 1954. He is presently in GS-13.

Mr. FELT has most enthusiastically and energetically applied himself to his duties as Assistant Special Agent in Charge. He assumes responsibility, has a keen sense of loyalty and resolves problems intelligently. As the Assistant Special Agent in Charge, he has developed exceptionally well and has definite possibilities of Special Agent in Charge material.

In view of his outstanding progress as Assistant Special Agent in Charge for over a period of six months, it is recommended that consideration be given to his reallocation from GS-13 to GS-14.

REALLOCATION

ASAC Felt is presently in Grade GS-13, \$9420 per annum and is being considered for reallocation to GS-14, \$10,320 per annum based upon a recommendation submitted by SAC Chiles on July 20, 1955.

Mr. Felt has been ASAC at New Orleans since December 16, 1954, and this was his first assignment as an ASAC. He has been censured on six occasions since he assumed his duties as ASAC. On February 17, 1955, he was censured for improper supervision of a matter involving the interview of an individual who made allegations against unidentified FBI Agents in Washington. On May 2, 1955, May 12, 1955, and June 8, 1955, he was censured for approving various reports containing errors. On May 27, 1955, he was censured for his failure to properly coordinate and plan a surveillance. On July 22, 1955, he was censured after it was learned that he had initialed for file a memorandum dated February 25, 1955, which set forth derogatory information concerning a Deputy U. S. Marshal. This information should have been furnished to the Bureau along with an evaluation of the source of the information.

The New Orleans Office has not been inspected since ASAC Felt assumed his duties but is due for an inspection in the near future.

RECOMMENDATION

In view of the administrative action taken against ASAC Felt, I recommend no action be taken toward his reallocation at this time.

Reference is made to the Bureau's memorandum of 6/2/55 and to New Orleans memorandum of 6/3/55.

In the referenced Bureau communication instructions were set out to advise the Bureau as to whether certain allegations concerning Deputy U. S. Marshal [redacted] had previously been furnished to the Bureau. b6 b7C

A review of this matter reflects that the allegations against [redacted] were reported in a memorandum dated 2/25/55 by SA [redacted], which was initialled by ASAC W. MARK FELT. Based on the information contained in this memorandum, entitled "POTENTIAL CRIMINAL INFORMANT", the file was closed because information had substantiated the fact that [redacted] was unreliable, exaggerated the truth and was a "terrific liar". Memoranda of SA [redacted] and ASAC W. MARK FELT concerning reasons why the Bureau was not advised of this allegation are attached. b6 b7C b7D

It appears that the information furnished by [redacted] was erroneous and without foundation, and that SA [redacted] and ASAC FELT were justified in taking no action upon the apparently fabricated story of [redacted]. Based on this and other unreliable information, [redacted] was dropped as a PCI. b6 b7C b7D

There is also attached a memorandum of SA [redacted] as to his reason for placing this unreliable information in the General Investigative Intelligence Report. It should be noted that SA [redacted] prepared the General Investigative Intelligence Report for the Gulfport Resident Agency in the absence of SA [redacted], who was at the Bureau on a special assignment. He took data from the General Investigative Intelligence file and incorporated it into the general report and was not familiar with the unreliability of former PCI [redacted], accordingly, failed to point this out when setting forth information furnished by [redacted]. b6 b7C b7D

RECOMMENDATION

In view of the fact that the failure of SA [redacted] to state in the General Investigative Intelligence Report that the information

of PCI [] concerning Deputy United States Marshal []
[] was unreliable and without foundation did not bring about
any embarrassment to the Bureau, no administrative action is being
recommended. I have cautioned SA [] and ASAC FELT to be
alert to furnish the Bureau with any substantial allegations of
this nature in the future. I have also reprimanded SA []
[] to exercise every care in the future to qualify and ex-
plain any apparent misleading or false allegations included in the
General Investigative Intelligence summary.

ERROR:

General Investigative Intelligence Report of New Orleans Office 5-15-55 on page 88 contained a statement reportedly made by former PCI [redacted] to SA [redacted] to the effect that U. S. Deputy Marshal [redacted] had appeared in a gambling casino at the [redacted], Mississippi, on 2-24-55 in a drunken condition and [redacted]

[redacted]. There was no statement as to whether this information had previously been submitted to the Bureau or what other action had been taken thereon.

RECOMMENDATIONS SAC NEW ORLEANS:

The SAC advises the pertinent part of the GIIF report was prepared by SA [redacted], during the absence of SA [redacted] on special assignment at the Bureau. It was approved by Relief Supervisor [redacted]. The original information concerning [redacted] was contained in a memorandum of SA [redacted] of 2-25-55 in which he recommended the discontinuance of the PCI because she was known to exaggerate and was described as a "terrific liar" and information furnished by her was unreliable. This memorandum also revealed instance where the PCI had furnished false information and recommended that the file on her be closed. This memorandum was initialed by ASAC W. Mark Felt. The SAC at New Orleans is of the opinion that SA [redacted] and ASAC Felt were justified in taking no action on this matter in view of the apparent fabricated story of the PCI. He advises that SA [redacted] was at fault in not properly qualifying the information in the GIIF report to show that it was unfounded and he has reprimanded this Agent. He recommends no further action concerning SA [redacted]. Relief Supervisor [redacted] has advised he did not have the PCI's file available when approving the GIIF report and was unaware of her unreliability.

b6
b7C

RECOMMENDATIONS OF INVESTIGATIVE DIVISION:

Investigative Division feels that this information should have been sent to the Bureau with the reliability of the source being indicated so that we could have discharged our responsibility for disseminating the material. It is also believed that the GIIF Report should have reflected the evaluation of the source of this information. For these reasons it is recommended that a letter of censure be sent to ASAC W. Mark Felt, who initialed the original information for the file without taking appropriate action on it, to SA [redacted] who dictated the GIIF Report without including evaluating information, and to SA [redacted] who approved this report. No action is recommended as to SA [redacted] as he promptly dictated an appropriate memorandum making this information available to the New Orleans Office immediately after it was received.

ADDENDUM OF THE ADMINISTRATIVE DIVISION:

2CH
RGH:ncw

7/20/55

It is noted that SA [] who approved the General Investigative Intelligence Report of 5/15/55, was unaware of the unreliability of the source of the derogatory information concerning Deputy Marshal [] set forth on page 88 of the report. Investigative Division has advised that no information concerning the unreliability of the source was set forth any place in the report and that there was nothing in the manner in which the information concerning [] was set forth to prompt a person, not familiar with the unreliability of the source, to see to it that the source was evaluated in the report. This was a long report of at least 88 pages and it appears it was the responsibility of SA [] to insure the pertinent evaluation of the source was included in the report and that [] not be held responsible for the omission. b6 b7C

RECOMMENDATIONS OF THE ADMINISTRATIVE DIVISION:

(1) The Administrative Division concurs with the recommendations of the Investigative Division that ASAC Felt and SA [] be censured. b6 b7C

✓ [Signature] 7/20

(2) That SA [] not be censured as he was unaware of the unreliability of the source of derogatory information, since the report contained nothing to specifically indicate the source should have been evaluated and since responsibility for including the evaluation in the report rested with SA []. b6 b7C

SAC, New Orleans, by letter 7-11-55, has recommended commendation for ASAC W. Mark Felt and Supervisor G. Myrwin Alderson for their close supervision and outstanding work in supervising criminal investigations which resulted in 414 convictions being obtained by the New Orleans Division during fiscal 1955. This placed New Orleans second highest among Bureau divisions and was an increase of 26 over fiscal 1954.

Analysis of the statistical accomplishments of the New Orleans Division for fiscal 1955 reflects that the New Orleans Division had the following record:

	Fiscal 1954	Fiscal 1955	Increase or Decrease
Convictions	388	414	+ 26
Fines, Savings, & Recoveries	\$620,343	\$643,662	+ 9
Automobiles	419	428	+ 9
Fugitives	270	224	- 46

It should further be noted the New Orleans Division has a relative standing of 22nd in convictions, 13th among the field offices in fines, savings, and recoveries, 17th in automobiles, and 11th in fugitives.

RECOMMENDATION:

It is not felt that the record of the New Orleans Division as indicated above warrants commendation because of the relative standing of that office in all categories and, furthermore, they ended with 46 less fugitives.

The accomplishments in the criminal field of each division and their relative standing are being analyzed by the Investigative Division. Letters will be directed to each office commenting on their accomplishments. Due credit will be given where improvement has been shown over the previous fiscal year in such categories as convictions, fines, savings and recoveries, automobiles located and fugitives apprehended. At the same time, appropriate attention will be directed to any deficiencies or

Dear Mr. Felt:

During the recent inspection of the New Orleans Office by Mr. Lee O. Teague of the Inspection Staff, it was noted that in the Civil Rights case involving [REDACTED] New Orleans file number 44-683, a delay had occurred in notifying the head of the employing agency that an investigation had been initiated. Responsibility for this delay was yours. Similar delays must not recur.

b6
b7C

Errors of form amounted to 14.05 per cent in cases supervised by you. The errors in criminal informant files were a primary factor in causing this condition to exist. You must see that agents record the necessary data, as required, in these informant files. I shall expect your supervision to be much closer to prevent such errors.

It is necessary that you and the other supervisory officials in the office use the periodic file reviews with agents as a means of directing the investigation and correcting any deficiencies found to exist.

Bureau Form 0-17 of July 21, 1955 returned the three parole reports prepared in this case as being incomplete in the omission of sentences received. These reports have been rewritten and amended reports submitted to the Bureau under separate cover.

The defective reports were prepared by SA HAROLD F. CHARRON, JR. and approved as enclosures with his investigative report of July 13, 1955 by ASAC/W. MARK FELT.

Memorandum of explanation of SA CHARRON is enclosed herewith, together with Bureau Form 0-17.

In the preparation of revised parole reports a review of the file was made and additional data believed pertinent was set out under the heading "Aggravating or Mitigating Circumstances." It is felt that proper and complete reporting is the responsibility of the dictating agent who should have included the prosecutive data in the original reports. It is noted that SA CHARRON is a first-office agent.

RECOMMENDATION:

It is recommended SA CHARRON be given a letter of censure for the omission of sentences in the original reports. It is not felt that he should be censured for omission of some of the aggravating circumstances because

FELT makes an excellent personal appearance. He dresses in good taste. He is in good health, is aggressive, and has an excellent attitude. He is married, , and is presently the Assistant Special Agent in Charge at New Orleans. b6

Since entering on duty January 26, 1942, Felt has been assigned to five field offices, as a Bureau supervisor, as an aide to the Inspection Staff at Bureau Headquarters, has been a field supervisor, and is presently ASAC.

FELT has initiative, industry, a good knowledge of his duties, is reliable in carrying out assignments, and has leadership ability. From my observation of this agent's performance, he has shown both executive and administrative ability. He makes a tight evaluation and is very thorough.

(From his performance I believe that FELT could adequately handle the duties of Special Agent in Charge of a small office. He is available for and interested in administrative advancement.)

RECOMMENDATION: (On original only)

Felt is thoroughly capable, has initiative and aggressiveness; he is alert. (I consider that he can capably handle the SAC duties, and it is recommended he be considered as ASAC in a larger office.)

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
0 No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

Attached is a special performance rating for Assistant Special Agent in Charge W. MARK FELT, covering the period March 31, 1955 through November 25, 1955.

As reflected in this performance rating, ASAC FELT is carrying out the responsibilities of Assistant Special Agent in Charge in an exemplary manner. He has received a number of letters of censure; however, I believe that this is primarily due to the heavy volume of work handled by him. He has an excellent attitude and has put forth a concerted effort to better his performance. As a result, it should be noted that during the past several months he has received no letters of censure. At the present time, he is in GS-13 and because of his record of improvement, it is recommended that he be promoted to GS-14.

While Chiles was at the Bureau for conference, he was interviewed by me on 11/2/55 on the following topics:

1. Results of last inspection, 9/9/55 and current status of office; necessity for frequent checks of various phases of operations.
2. Failure of New Orleans to include in its letter of 10/26/55 whether defensive tactics was conducted when the New Orleans Office engaged in firearms training on 10/19 and 10/21/55; our records show Agents [] and [] have missed the last two courses and we are writing New Orleans about it; importance of his making his letters complete.
3. Police training school program in New Orleans Division; no Civil Rights Schools, which Chiles explained was "because there has been no specific request received from police for such a school." Chiles feels that these schools could be helpful to police and to the Bureau and will make certain that police are aware of the availability of this instruction.
4. Went over various SAC Contacts to make sure that Chiles knows them and that the contacts are producing.
5. Discussion of matters relating to IACP.
6. Chiles reported that ASAC Felt is progressing nicely but needs a few more months' experience as ASAC at New Orleans before advancing to an SAC position.

RECOMMENDATION:

I feel that these agents did an outstanding job in locating and bringing about the apprehension of [redacted]. Their work is particularly good in view of the manner in which they utilized Confidential Informants and maintained the surveillance without arousing the suspicion of the subject or those associated with the subject. Accordingly, it is recommended that ASAC FELT and Special Agents [redacted], [redacted] and GRIFFIN be commended for their outstanding performance.

Reference is made to Springfield teletype dated 10/17/55, advising that [REDACTED], suspect in instant case, were believed living at the Anchor Hotel, New Orleans, Louisiana.

b6
b7C

In my absence from the Headquarters City on that date, this investigation was personally supervised by ASAC W. MARK FELT. ASAC FELT, together with Special Agents [REDACTED] and WILL HAYDEN GRIFFIN initiated an immediate investigation for the purpose of locating [REDACTED]. The Anchor Hotel was known to be a hangout for the criminal element, and it was felt that any direct inquiry at the hotel might prematurely disclose information concerning [REDACTED].

b6
b7C

A surveillance was maintained at the hotel, together with the utilization of informants, and it was determined that [REDACTED] was not at the hotel during the evening of October 17, 1955. Found at the hotel during the investigation was one [REDACTED], under investigation for possible possession of some of the Greenlease ransom money, also known to be extremely dangerous, peddling dope and having working for him prostitutes. [REDACTED] was observed to have come from the room of the suspect. Through informants, it was determined that [REDACTED], also known as [REDACTED], was working at the Texas Tornado Club about two blocks from instant hotel, employed as a strip-tease dancer.

b6
b7C

A discreet surveillance was maintained until about 3:00 AM on the morning of October 18, 1955, and through the utilization of informants, [REDACTED] was observed walking on Bourbon Street about one block from the Anchor Hotel. It should be noted that through the utilization of informants, [REDACTED] identity had been established by the investigating agents, even though his description had varied from that previously obtained. [REDACTED] was taken into custody without incident on Bourbon Street by the above mentioned Agents.

Reference is made to Butel dated November 7, 1955. Attached are the explanations of SA [REDACTED] ASAC W. MARK FELT and Stenographer [REDACTED]. The report of SA [REDACTED] dated November 5, 1955 in instant case reveals the magnitude of this investigation and the explanations reveal the extended effort made by the Special Agents to meet the deadline placed by the Bureau. The explanations also reveal a number of other duties and responsibilities which must necessarily have been met during the period of investigation. Notwithstanding these other objectives, the agents assigned to the investigation were working long hours and were able to complete the investigation and prepare a 75-page rough draft which was forwarded to headquarters city by mail. This rough draft was received and because of its length and because of the congestion in the stenographic pool caused by the emergency operation of one of the stenographers and because of other deadline assignments being prepared, it became physically impossible to meet the Bureau deadline of November 1. ASAC FELT, of course, should have immediately advised the Bureau that the investigation had been completed, but because of the lengthy report, faced with other emergency matters, the report would not reach the Bureau on the date set in Bureau airtel dated October 22, 1955. As indicated by him, because of the pressure of other work, he neglected through inadvertence to prepare the necessary communication to the Bureau.

b6

b7C

b6

b7C

It appears that the delay has not embarrassed the Bureau nor affected the outcome of any possible prosecutive action in connection with these allegations. Accordingly, the errors appear to be in the nature of form errors rather than errors of substance. ASAC FELT, as well as other personnel involved in this matter, has been reprimanded by me for failure in properly notifying the Bureau that the deadline could not be met and errors of this nature will be avoided in the future. In view of the fact that the error noted is not of substance, no further administrative action is being recommended.

ERROR

Upon receiving allegations that sheriff and county attorney had obtained a recording of statement given by Negroes regarding mixed swimming parties and victims' views regarding integration and had made such recording available to a mass meeting which adopted resolution that the victims who are white should leave the county because of their views on racial matters, investigation ordered and New Orleans was instructed to submit report to reach Bureau no later than 11/1/55.

Extensive investigation conducted by New Orleans Office and report dated 11/5/55 was received in Bureau on afternoon of 11/9/55. New Orleans did not advise Bureau of inability to meet deadline and it was necessary to follow the New Orleans Office in this matter.

RECOMMENDATIONS OF SAC NEW ORLEANS

SAC New Orleans recommends no action regarding employees involved as investigating Agent had other expedite duties and responsibilities even though SAC states that ASAC W. Mark Felt should have advised the Bureau that investigation had been completed but due to lengthy reports and other emergency matters report would not reach the Bureau by the deadline date. SAC stated that ASAC Felt neglected to advise the Bureau because of the pressure of other work and through inadvertence.

RECOMMENDATIONS OF INVESTIGATIVE DIVISION

(1) Investigative Division concurs with SAC New Orleans and recommends no administrative action regarding the stenographer or Agent to whom the case was assigned. The investigation was completed and rough draft forwarded to New Orleans Office by 10/29/55.

(2) Investigative Division recommends a letter of censure to ASAC Felt for his improper supervision in this matter in failing to advise the Bureau that investigation had been completed but report being delayed due to its length and other matters of an emergency nature which necessitated correspondence by the Bureau to follow the New Orleans Office.

Pursuant to your instructions, there is submitted the following explanation concerning my supervision of captioned case.

I took over supervision of this case mid-way during the investigation; when investigation was converted from a preliminary inquiry to a full field investigation, which was requested by Bureau airtel dated 10/22/55.

I discussed the scope of the investigation with SA [REDACTED], to whom this case is assigned, and arrangements were made to put all available man power in the Jackson Resident Agency on this case. During the period covered by this investigation we had firearms, the semi-annual agents' conference; the bank robbery conference at Jackson, Mississippi, the National Academy Associates meeting at Jackson, and other expedite matters. I instructed SA [REDACTED] to utilize all the agents in Jackson to the fullest possible extent and one agent was instructed to miss the October firearms and the semi-annual conference so that work on the case could be continued.

b6

b7C

The rough draft report in this case came to the desk during the late afternoon of October 31, 1955. I do not recall specifically the exact time; however, mail from the Jackson Resident Agency customarily reaches the office about noon time. The block stamp on the rough draft report is dated October 31, 1955. I recall checking this rough draft about 5:30 PM and continuing until about 7:30 PM. I continued checking the voluminous rough draft the following morning and approved it for special typing.

Realizing that such a voluminous report would cause congestion in the steno pool, I discussed the matter with Stenographer [REDACTED], and she stated that two or three days would be necessary to type the report because it was so long. She pointed out that because of a large number of other expedite cases, including an extensive summary report on the Southern Educational Conference, Security Matter - C, case, it would not be possible to divide up instant report

among several stenographers. [] stated she would be able to clear her books of other expedite matters during the afternoon of November 1 and would commence typing on instant report on November 2, 1955.

b6
b7C

I certainly should have advised the Bureau by airtel of the difficulties being encountered, and that the report would be delayed. I was handling a very large number of expedite matters, and I simply failed to realize at the time that the Bureau deadline was not being met. I was, however, doing everything physically possible to expedite the completion of the report.

[] worked continuously on the report in this case on November 2, 3 and 4, at which time the report was substantially completed. On Saturday I reviewed the report and made a number of revisions and corrections. This necessitated retyping a number of pages, which was done Monday morning, November 7, 1955, at which time the corrected pages were inserted and the report was immediately furnished the Bureau.

b6
b7C

I did not anticipate that it would take as long to type this report as it actually did. The reason is that the rough draft consisted of approximately 75 or 80 pages, and I felt that the completed report would run substantially less pages. As it turned out, the completed report is 65 pages in length.

REALLOCATION

Mr. Felt is presently in grade GS-13, \$9420 per annum, and is being considered for reallocation to grade GS-14, \$10,320 per annum, based on recommendation of his SAC dated November 25, 1955.

He entered on duty January 26, 1942; is 42 years of age, married, . He has a Bachelor of Arts Degree, a Bachelor of Laws Degree, and is a member of the District of Columbia Bar and has been admitted to practice before the United States Supreme Court. He has been ASAC at New Orleans since December 16, 1954. His services are considered satisfactory.

The New Orleans Office was last inspected in August, 1955, and the Inspector found investigative operations good, personnel matters and administrative operations very good, and contacts and physical condition and maintenance excellent. The Inspector concluded that Mr. Felt was enthusiastic, had the best interests of the Bureau at heart, made an excellent personal appearance, and had a very good attitude toward his work. The Inspector considered him capable of assuming the duties of ASAC in a larger office or SAC in a smaller office.

No administrative action has been taken against Mr. Felt since the inspection in August, 1955. During the calendar year 1955 he received seven letters of censure and during the same period he received two letters of commendation, the last commendation being on October 28, 1955. His commendation of July 21, 1955, was for the accomplishments of the New Orleans Division in criminal matters during the fiscal year 1955. The excellent results achieved could be directly attributable to his competent supervision of these criminal cases.

RECORDED-148

On November 25, 1955, SAC Chiles submitted a special performance rating on Mr. Felt and stated that he had an excellent attitude and had doubled his efforts for better performance as an ASAC. Mr. Chiles stated that Mr. Felt carried out all his responsibilities in an exemplary manner and he recommended his promotion to grade GS-14.

By letter dated January 24, 1956, Mr. FELT was transferred from New Orleans, Louisiana to Los Angeles, California; to assume the duties of Assistant Special Agent in Charge of that office.

On November 25, 1955, I submitted a special performance rating regarding Mr. FELT, which was accompanied by a memorandum recommending him for promotion. My comments in this special performance rating are equally applicable at this time, and in view of the fact that no changes have been noted, and in view of the short period of time since the submission of this report, no performance rating is being prepared in connection with Mr. FELT's transfer.

Mr. FELT has continued to carry out his assignments in an exemplary manner and has received no letters of censure from the Bureau since the above-mentioned performance rating. I consider Mr. FELT an outstanding Assistant Special Agent in Charge, who is an intelligent and mature Bureau representative. I have been particularly impressed with his loyalty and his attitude towards his work.

McFarlin

The Director saw SAC M. W. McFarlin of the Cincinnati Division on January 16, 1956, while McFarlin was attending two-day conference at the Seat of Government on January 16 and 17, 1956. At that time McFarlin discussed a personal problem with the Director involving [redacted] asked the Director to consider transferring him to the San Francisco Office in grade GS-14 to help him alleviate the personal problem. McFarlin advised the Director that it had been necessary for him to [redacted] since his assignment to Cincinnati. McFarlin advised that [redacted] had been [redacted] as a result. Doctors indicated that [redacted] should remain [redacted] and in this manner felt [redacted]. McFarlin indicated that if it was necessary to reduce him to grade GS-13, then he would prefer to remain in Cincinnati in grade GS-15 as SAC. The Director indicated he was somewhat confused by the reasons advanced by McFarlin for this desired change and instructed that a determination be made as to whether it would be desirable to have him replaced.

McFarlin discussed his personal problem with me, advising that [redacted] while McFarlin was assigned to Baltimore. It is to be noted that McFarlin was SAC at Baltimore from June, 1948, to August, 1950. He said [redacted] is now [redacted]. McFarlin indicated that it had been necessary for him to [redacted] because he, McFarlin, had been unable to stay in one section of Cincinnati. would have a better opportunity of remaining in one place, which would assist him in solving his personal problem.

In removing an SAC and placing him on general assignment, normally the SAC would be reduced from grade GS-15 to grade GS-13, which is the top salary for investigative personnel. However, we have two exceptions to the general policy. When C. H. Carson was removed as Special Agent in Charge of the Atlanta Division in October, 1953, he was reduced from GS-15 to GS-14 and transferred to the San Francisco Division on general assignment. When Richard A. Newby was removed as SAC of the Academy at Quantico in March, 1954, he was reduced from grade GS-15 to grade GS-14 and transferred to the Washington Field Office on general assignment. We have one other investigative Agent in grade GS-14 and in his case there was also an exception to the general policy. You may recall that in March, 1954, the Bureau afforded SA [redacted] of the New York Office a meritorious promotion from grade GS-13 to grade GS-14. He was being considered for a meritorious increase in salary at that time; however, he was in the top salary bracket of GS-13 and legislation prohibited any further meritorious increase in that grade.

McFarlin has almost 22 years of service, having entered on duty May 23, 1934. He has been an SAC in various offices since February of 1941. His over-all record may be considered to be satisfactory.

I. Under the circumstances I recommend that McFarlin be relieved of his assignment in Cincinnati and transferred to San Francisco as a Special Agent on general assignment with a corresponding reduction in grade and salary from GS-15, \$11,880 per annum, to grade GS-14, \$10,965 per annum.

II. I recommend that SAC James Henry Gale of the Richmond Office be designated SAC of the Cincinnati Office with no change in grade or salary.

Gale entered on duty November 29, 1939, in a clerical capacity and was appointed to the position of Special Agent June 21, 1943. He is presently in grade GS-15, \$11,880 per annum; 34 years of age, married, [redacted]. He has a Bachelor of Laws Degree. Gale has listed Cleveland, Pittsburgh and Detroit as his offices of preference. He served as ASAC and SAC at Anchorage from November, 1951, to March of 1955 when he was transferred to his present assignment as SAC at Richmond. He has a very good over-all service record.

b6
b7C

The Richmond Division received a redback inspection in March and April, 1955, and the office was found in good condition. Administrative operations were rated as good; investigative matters

and personnel matters, very good; and contacts and physical condition and maintenance, excellent. Since his assignment to Richmond, Gale has been censured on three occasions, the last being on September 7, 1955, and during the same period of time he has received four letters of commendation and one letter of appreciation.

The Director saw Mr. Gale on January 10, 1955, and said he made a good personal appearance and the Director was impressed by Mr. Gale's enthusiasm and alertness as to the problems prevailing in his office. The Director again saw Mr. Gale on March 1, 1955, when Gale was proceeding to Richmond as SAC. The Director discussed a number of field problems with Mr. Gale at that time.

III. I recommend that ASAC Wesley G. Grapp of the Los Angeles Office be designated SAC of the Richmond Office with no change in grade or salary.

Mr. Grapp's name appears on top of the SAC Advancement List. He entered on duty November 4, 1946, and is presently in grade GS-15, \$11,610 per annum. He is 37 years of age, married, [redacted]. He has a Bachelor of Laws Degree and a Bachelor of Philosophy Degree. He is a member of the Nebraska State and Federal Bars and has been admitted to practice before the U. S. Supreme Court. His offices of preference are Omaha and Minneapolis. Mr. Grapp was first designated ASAC at Oklahoma City April 15, 1952, and transferred to Kansas City as ASAC July 21, 1953. He assumed his present duties as ASAC at Los Angeles August 23, 1955. His over-all service record is decidedly above average.

b6
b7C

Mr. Grapp was promoted to grade GS-15, December 4, 1955, in view of the excellent manner in which he was handling his duties at Los Angeles. He is considered by SAC Malone and various Inspectors as being ready to assume the duties of SAC. The Los Angeles Office is currently under inspection by Inspector J. E. Edwards. Inspector Edwards reported telephonically today, January 23, 1956, that Grapp is one of the better ASACs and is fully capable of assuming the duties of SAC of a small to moderate-size office. Inspector Edwards reported that Grapp is aggressive, strict, intelligent and competent in the handling of personnel. His services at Los Angeles are highly satisfactory and Inspector Edwards has noted no defects with respect to Mr. Grapp's performance.

IV. I recommend that ASAC William Mark Felt of the New Orleans Office be designated ASAC of the Los Angeles Office with no change in grade or salary.

Mr. Felt entered on duty January 26, 1942, and is presently in grade GS-14, \$10,320 per annum. He is 42 years of age, married,

[redacted]. He has a Bachelor of Arts Degree, a Bachelor of Laws Degree, and is a member of the District of Columbia Bar. He has been admitted to practice before the U. S. Supreme Court. Mr. Felt has been ASAC at New Orleans since December 16, 1954, and has been recommended for additional responsibilities by his SAC and by two members of the inspection staff. He has listed any office on the West Coast as his preference. b6 b7C

The New Orleans Office was inspected in August, 1955, and the office was found to be in good condition. Investigative operations were rated good; administrative operations and personnel matters, very good; contacts and physical condition and maintenance, excellent. The Inspector noted that Mr. Felt had received several letters of censure while he was ASAC at New Orleans; however, he reported that Mr. Felt had a very good attitude and presented an excellent personal appearance. He was respected by the employees and had the necessary attributes for additional responsibilities.

Since assuming his duties as ASAC at New Orleans, Mr. Felt has been censured on seven occasions, the last being on August 15, 1955. During the same period of time he has been commended on two occasions, the last being on October 28, 1955.

The Director last saw Mr. Felt on November 24, 1954, and said that he made a good personal appearance, seemed to be enthusiastic about his new assignment, and the Director rated him above average.

In the event these recommendations are approved, a separate memorandum will be submitted concerning the replacement of Mr. Felt at New Orleans.

For record purposes, the Monitor Program for Saturday and Sunday, December 3 and 4, originated in New Orleans. The first spot on Saturday evening was handled by SAC Chiles. The second spot was handled by Special Agent [redacted], who did an exceptionally good job. The third spot dealing with civil rights was handled by myself and the fourth spot dealing with the developments in a bank robbery case at Slidell, Louisiana, was handled by ASAC Mark Fellet, who also did a very good job.

We made two additional five-minute spots--one dealing with a Resident Agent. For this we used Resident Agent J. A. Martin in Baton Rouge, who did a very good job. [redacted] was utilized in the New Orleans office involving a recent case of murder on the high seas which purportedly was made down on the waterfront of New Orleans. The NBC sound engineer, connected with local station WUDC, was [redacted]. His equipment was faulty and the recordings were not at all good, although NBC tried to pep them up in re-recording in New York. It may be necessary to re-record the two which we have not yet used, which can be done by the Agents repeating the script which we can type up if we decide this is necessary. I will listen to these tapes in the next day or two and we will not use these for the next two or three weeks anyway.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

PART I GENERAL COMMENTS

ASAC FELT makes an excellent appearance. He has already appeared at numerous law enforcement conferences and he is being well received. He makes an effort to become acquainted with law enforcement officers and this interest on his part makes a very favorable impression on law enforcement officers. I have heard ASAC FELT address the Semi-Annual Agents' Conference and he handles himself in a most capable fashion. The reports received on addresses he has delivered in the area are very favorable. Mr. FELT can handle any of the more complicated investigative assignments. He is an approved Firearms Expert and he has participated frequently on raids and dangerous assignments as a leader during the rating period. By letter dated July 21, 1955, Mr. FELT was commended by the Director for the excellent results achieved by him in accomplishments of the New Orleans Division during the fiscal year 1955 in criminal matters as a result of his competent supervision. By letter dated October 28, 1955, ASAC FELT was again commended for his alertness and good judgment in handling the apprehension of one [REDACTED], a fugitive in a bank robbery case. ASAC FELT has a splendid attitude. He has already displayed a thorough knowledge of Bureau policy and procedure. He is willing to participate in the operation of the office in every way possible. During my recent illness, he acted as SAC of this office and did so very capably. His over-all ability as ASAC is outstanding.

At the present time there are five ASACs on the SAC Advancement List; namely, J. P. McMahon, San Francisco; J. L. Schmit, Chicago; P. E. Moore, New York; K. W. Dissly, Anchorage; and W. Mark Felt, Los Angeles. These ASACs have not been at the Seat of Government for conferences, special schools, or In-Service training in the recent past.

ASAC McMahon has not received Special Administrative training and will be ordered in sometime in the near future for attendance at a Special Administrative School that we are now setting up. The other four ASACs have already attended a Special Administrative School and it is, therefore, felt that they should be scheduled for In-Service training in the near future. By having these five ASACs at the Seat of Government, Bureau officials will have an opportunity to talk with them and evaluate their potential for further advancement in the service.

RECOMMENDATION

I recommend that ASAC J. P. McMahon, San Francisco, be scheduled for a Special Administrative School in the near future and the other four ASACs be scheduled for In-Service training on a staggered basis. If you agree the necessary orders will be dispatched to the field immediately.

Dear Mr. Hoover:

This is just a note to advise that I am scheduled to go into St. Vincent's Hospital, Los Angeles, on Tuesday, March 20th, for minor surgery. I have had an enlargement in the left chest area for several weeks and the doctor advised that whatever it is, it should be removed. He stated that it could be a tumor, a cyst, or gynecomastia.

The doctor does not anticipate that I will be in the hospital more than two or three days, and possibly two or three days at home afterwards at the most. I'll be back to work as quickly as possible. You will be furnished with a full report of the results.

The new ASAC, Mark Felt, has arrived and, while it is a little early to give a full appraisal of his ability, I have had sufficient opportunity to observe him, and there is no doubt that he is fully capable of handling the office during my absence.

With kind personal regards.

MEMORANDUM FOR MR. TOLSON

On Monday, April 30, I saw Assistant Special Agent in Charge W. Mark Felt, of the Los Angeles Field Division. Mr. Felt makes an excellent personal appearance and seems to be intensely interested in his work. I would rate him above average.

I discussed with Mr. Felt the various problems affecting our field operations and pointed out to him that I noted at present that six Agents of the Los Angeles Office had not yet qualified for testimony in the Federal court; that the accomplishments of the Los Angeles Office had dropped as to the number of fugitives apprehended and the number of automobiles recovered; that Los Angeles had closed only 7.52 cases per Agent, whereas the average for the service was 9.48; that it had been necessary to write 37 letters of censure to the Los Angeles Office during the last six months, which I considered to be excessive. I pointed out that most of these errors covered matters dealing with inaccuracy, incompleteness or lack of thoroughness and that all these derelictions could be very quickly corrected if the supervising officials of the Los Angeles Office made a particular effort to impress upon each and every employee his own individual responsibility and the need for measuring up to it.

I also discussed with Mr. Felt my concern about the conduct of certain employees of the Los Angeles Office, such as occurred in the recent incident wherein a Resident Agent had been involved in an accident and the Agent sent to investigate the matter had not made a full and complete investigation. I also mentioned the receipt of the anonymous communications from persons who have obviously been employees of the Los Angeles Office. I likewise referred to the case of the former Agent who was dismissed from the service with prejudice because of gross misconduct as a result of his associating with a common prostitute and being arrested by the local police in Los Angeles.

SAC Soucy, Albany Division, has requested retirement, active duty ceasing close of business August 21, 1956, thus creating a vacancy in the Albany Division.

I. I recommend SAC Arthur Cornelius, Jr., Salt Lake City Division, be designated SAC of the Albany Division with no change in grade or salary. It is to be noted that Mr. Cornelius is due for rotation as he has been at Salt Lake City since November 8, 1952.

Mr. Cornelius entered on duty March 25, 1935, and is presently in grade GS-15, \$12,420 per annum. He is 48 years of age, married, [redacted] b6 b7C. He is a native of New Jersey and as of July 24, 1956, he listed the Albany Division as his office of preference. Mr. Cornelius was first designated Acting SAC of the Grand Rapids Division December 28, 1939, and since that time has served as SAC in a number of field divisions.

He was SAC at Albany from October 20, 1941, to August 16, 1943, and again from November 1, 1945, to February 1, 1950. His services as SAC at Albany were generally satisfactory.

The Albany Division is a key division in the northeast, being the capital of New York State. SAC Cornelius is completely familiar with all of the problems inherent in that territory and I believe can handle the functions of the office in a satisfactory manner.

The Salt Lake City Division was last inspected in November, 1955, and the office was found to be in generally satisfactory condition. The investigative operations and contacts were rated very good and all other operations good. On July 25, 1956, SAC Cornelius was commended for the very fine record of statistical accomplishments compiled by his division during the fiscal year just ended. He was advised to convey the Bureau's gratification to all employees of the Salt Lake City Division who helped to achieve such excellent results. The statistical accomplishments for the first month of fiscal year 1957 at Salt Lake City reveal a decrease in convictions; in fines, savings, and recoveries; and in

automobiles recovered; and an increase in fugitives apprehended. You may recall that the Albany Division had a very poor showing in statistical accomplishments, showing a decrease in all categories for fiscal year 1956. It is felt that SAC Cornelius can make a substantial improvement in Albany.

The Director last saw Mr. Cornelius on January 31, 1956, and stated that he made a good personal appearance. At that time the Director discussed with him a number of delinquencies attributable to the Salt Lake City Division.

II. I recommend that Assistant Special Agent in Charge W. Mark Felt, Los Angeles Division, be designated SAC of the Salt Lake City Division with no change in grade or salary. It is to be noted that Mr. Felt's name appears first on the SAC Advancement List.

Mr. Felt entered on duty January 26, 1942, and is presently in grade GS-14, \$10,320 per annum. He is 43 years of age, married, [redacted] [redacted] He has a Bachelor of Arts Degree, a Bachelor of Laws Degree, is a member of the District of Columbia Bar, and has been admitted to practice before the U. S. Supreme Court. Mr. Felt is a native of Twin Falls, Idaho, and has listed the West Coast as his preference for assignment.

b6
b7C

Mr. Felt served as ASAC at New Orleans from December 16, 1954, to February 22, 1956, when he assumed his duties as ASAC at Los Angeles. The Los Angeles Office has not been inspected since Mr. Felt assumed his duties there; however, SAC Malone has rated his over-all ability as outstanding. Mr. Malone considers him to have all the attributes of an executive and has recommended he be considered for further administrative advancement. While he was assigned at New Orleans, that office received an inspection in August, 1955, and the various functions of the office were rated good to excellent. The Inspector noted that he was performing his duties in a highly satisfactory manner and considered him capable of advancement to the position of SAC.

The Director saw Mr. Felt on April 30, 1956, and stated that he made an excellent personal appearance, seemed to be intensely interested in his work, and the Director rated him above average. By letter dated July 28, 1956, the Director expressed his appreciation to Mr. Felt for meeting the Director and Mr. Tolson upon their arrival in Los Angeles.

In the event the above recommendations are approved, a separate recommendation will be made for the replacement of Mr. Felt at Los Angeles.

Honorable J. Edgar Hoover
Director
Federal Bureau of Investigation
Washington 25, D. C.

Dear Mr. Hoover:

I have just been advised that Assistant Special Agent in Charge Mark Felt has been transferred to the Salt Lake City office as Special Agent in Charge.

Like those who have preceded Mr. Felt as Assistant Special Agent in Charge of the Los Angeles office, it has been my experience that he has been both pleasant and most efficient to work with. His tour of duty here, while brief, gave us adequate opportunity to work toward our common end and he was most cooperative.

We are, of course, sorry to see him go but, since the supply of good men in the Federal Bureau of Investigation seems inexhaustible, we shall await with pleasure the arrival of his successor.

Sincerely yours,

You inquired as to the reason why Mr. Felt had not departed for Salt Lake City.

On 8/15/56 the Director approved annual leave for SAC John F. Malone for the period 9/6 - 28/56. Mr. Malone drove his personally owned car to Pennsylvania for his vacation. The Director also approved Mr. Malone's attending a two-day conference at the Seat of Government 10/1 and 2/56. He plans on driving back to Los Angeles immediately upon completion of the conference but will not arrive until about 10/8 or 9/56. Mr. Felt plans on leaving Los Angeles for Salt Lake City 10/10/56.

ASAC Bachman was transferred from Indianapolis to Los Angeles and is due to arrive in Los Angeles today, 9/20/56. Under the circumstances it was deemed to be in the best interest of the Bureau to leave Mr. Felt in charge of the Los Angeles Division. It is to be noted that a fully experienced ASAC has been in charge of Salt Lake City since SAC Cornelius departed for Albany.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Assistant Special

Name of Employee W. MARK FELT (14393)Title Agent in Charge, GS-14Rating Period: from 4/1/56 to 10/5/56

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

PART I GENERAL COMMENTS

Mr. FELT has been ASAC of the Los Angeles Office since February 27, 1956. During this period he has capably demonstrated that he is well suited to handle all phases of the Bureau's work. He is well versed in the fundamentals of the manuals governing the operations of the Bureau. As a result he is quick to detect cases in which the Bureau has an interest and he takes steps to properly protect this interest. He is a very loyal Bureau employee and his attitude is excellent. During my absences from the office he acted as SAC and carried out the functions of this position.

He has attended various law enforcement functions in the area and has made a very favorable impression on the officers. I have not heard him deliver an address, but based on letters received from organizations and from general comments received from those who heard him, there is no doubt that he handles this phase of the Bureau's work very well. I have, however, heard him address office groups, and in so doing his voice was well modulated. He spoke clearly, forcibly, and held the attention of the group. I have worked on dangerous assignments with Mr. FELT. It has been observed that he is calm and alert in precarious positions. It is also noted that he does a fine job in organizing raids and other types of apprehensions. In handling personnel, Mr. FELT is very strict, but fair. He is well respected by all personnel in the office. Mr. FELT is definitely SAC material.

PART II SPECIFIC COMMENTS1. Justification for Any Minus Ratings Given

Not applicable.

2. Experience and Ability as Inspector's Aide

Mr. FELT has not acted as an Inspector's Aide during the rating period.

3. Participation in Informant Programs

ASAC FELT has during the rating period had supervisory responsibility for informant programs.

ORIGINAL FILED IN 67-152-3019

This case originated upon the complaint of [redacted], California, who advised on [redacted] that he had just been contacted by two individuals identifying themselves as Federal Officers. These men came to [redacted] and charged that he had not filed income tax returns since 1949. They indicated that he owed approximately \$1,540.00 and threatened him with arrest if the matter was not taken care of. [redacted] advised that he had not filed income tax returns during the period in question and he had actually believed the individuals were representatives of the Internal Revenue Service. One of the subjects who was later identified as [redacted] then stated to the informant that the matter might be disposed of by a lesser amount and it was agreed that the subjects would contact the informant in a day or two. b6 b7C b7D

Subsequently [redacted] was recontacted by the subjects telephonically and a meet was set up in [redacted] in [redacted]. This meet was surveilled and subject [redacted] was observed to contact the informant. The second subject, who was later identified as [redacted], was observed in the area acting as a lookout. During this contact [redacted] told the informant that if his case went to court the total cost would be approximately \$2,000; however, for \$1,500 [redacted] would see that [redacted] income tax file was destroyed. [redacted] stated he would contact the informant by telephone to set up the manner of payment. b6 b7C b7D

On the next day [redacted] was contacted by [redacted] telephonically and instructed to meet him in fifteen minutes at a certain address. Informant declined and [redacted] agreed to meet him at [redacted] at 9:00 A.M. the next day, b6 b7C b7D

[redacted] is in [redacted] and consists of [redacted]. There was no coverage [redacted] and for this reason coverage was arranged in [redacted]. Also, Agents were located strategically [redacted].

Subjects did not appear as they had indicated, but at about 9:05 A.M. the informant received a telephone call from [redacted] instructing that the informant immediately proceed to [redacted] for the pay-off. This change in the pay-off site made coverage exceedingly difficult. Not only is [redacted] a considerable distance from [redacted], but also personnel had to be moved this distance through heavy traffic congestion. Another difficulty was that close coverage of the pay-off was complicated because of the risk of being detected by [redacted] who was expected to again act as lookout.

b6
b7C
b7D

At approximately 9:45 A.M. [redacted] was observed entering [redacted] and contacting the informant who had already arrived. [redacted] was observed to take up a position [redacted] some distance away where he acted as a lookout. The informant had been provided with an envelope containing \$400.00. The serial numbers of this money were recorded. The informant, as instructed, passed this envelope to [redacted] and told him that was all the money he could collect and he would pay the remainder later. [redacted] accepted the money and at this point the informant signaled by removing his hat as he had been previously instructed by the Agents. [redacted] and [redacted] were immediately taken into custody.

b6
b7C
b7D

I feel that the above operation was handled in an outstanding manner not only because of the prompt and efficient apprehension of both of the subjects but also because the pay-off site was changed at the last minute and it was necessary to completely reorganize and establish new coverage in a period of approximately 30 minutes. This was done notwithstanding the fact [redacted] is a considerable distance from [redacted].

b7D

ASAC W. MARK FELT personally directed the apprehension. He has advised me, however, that the success of the operation resulted from the excellent planning and coordination of SA EDWARD R. SECORE, JR., and the extreme good judgment and independent actions on the part of SAS WILLIE C. LAW, ALBERT A. HUSTEDT, RICHARD J. BUXTON, [redacted], [redacted], and [redacted]. For this reason I recommend that Supervisor SECORE and the Agents mentioned receive letters of commendation.

b6
b7C

October 3, 1956

The subjects in this case impersonated Internal Revenue Service Agents and attempted to collect \$1,500 from a taxpayer in settlement for delinquent taxes. Agents surveyed a meeting between one subject and victim at [] at which time Agents exemplified alertness by detecting the second unknown subject who was posted as a lookout. Payoff was set up for []; however, at last minute subject phoned victim and changed payoff location to [], necessitating change of plans for coverage at [] where payoff and apprehensions were effected. This change of payoff site required prompt and efficient coordination by all participating Agents to smoothly effect these successful apprehensions.

b7D

ASAC W. Mark Felt personally directed the apprehensions. Supervisor Edward R. Secore, Jr. supervised this matter.

SAC, John F. Malone, Los Angeles, recommends letters of commendation be directed to Supervisor Edward R. Secore, Jr. and six participating Agents.

RECOMMENDATION OF INVESTIGATIVE DIVISION:

Investigative Division recommends that letters of commendation be directed to ASAC W. Mark Felt, Supervisor Edward R. Secore, Jr., Special Agents Willie C. Law, Albert A. Hustedt, Richard J. Euxton, [], [], and [].

W. Mark Felt . . . New F B I post pleasing to Idaho agent.

Special Agent Of FBI Starts Duties at S.L.

W. Mark Felt, a native of Twin Falls, Idaho, arrived in Salt Lake City Tuesday to assume duties as special agent in charge of the Salt Lake office, Federal Bureau of Investigation.

He replaces Arthur Cornelius Jr., who has been transferred.

Mr. Felt, who is "tickled to death" to be back in the Intermountain Region, was transferred from the Los Angeles office, where he was assistant agent.

He was educated in Twin Falls elementary schools and high school, receiving his B.A. degree in 1935 from the University of Idaho. He won his L.B. degree in 1941 at George Washington University, Washington, D.C.

War security problems kept Mr. Felt busy in the nation's capital until 1946, when he was transferred to Seattle. He has held positions in New Orleans and elsewhere as well as Los Angeles before coming here.

He is married to the former Audrey Robinson of Gooding, Idaho. They have two children.

FEDERAL BUSINESS ASSOCIATION
SALT LAKE CITY, UTAH

ATTENTION: CRIME RECORDS

Attached is a letter which I have received from Mr. H. C. HANSMANN, Membership Chairman of the captioned organization.

On 12/11/56 I attended the regular monthly meeting of this association, where I met a large number of Federal Government officials, including the heads of some departments. I did not commit myself in any way as to membership.

I feel that it would be helpful for me to attend meetings of this association from time to time because of the excellent opportunity to maintain good liaison with other Government officials. I do not feel that I should take out membership in the organization, because this office would then be more or less committed in support of any program undertaken by the Association.

An example occurred at the meeting 12/11/56, at which time a motion was adopted to investigate the circumstances surrounding the refusal of the employees of the Post Office Department to participate in the United Fund campaign. The refusal apparently came about as a result of a Post Office Department ruling prohibiting the postal employees from holding a raffle to obtain funds as they had done in the past.

I have acknowledged [redacted] letter personally and have told him that while my commitments were such that I would not be able to accept membership, I would appreciate the opportunity to attend their luncheons from time to time.

Dear Mr. Hoover:

PERSONAL

W. Mark Felt

I thought you would be interested in some of the information which Resident Agents at Las Vegas have obtained through their contacts and informants.

b6
b7C

Informant coverage at Las Vegas is quite good and most of the information obtained is used in connection with investigations. Some of the information does not relate to our investigations and for this reason no active verification is attempted. The information set out below is in this category and, while probably true, is definitely not verified.

All contacts at Las Vegas indicate the casinos and hotels have enjoyed the most successful year in their history. Indications are that even more casinos will be built and two expensive ones, the Hacienda and the Tropicana, have just been completed on "The Strip."

The new Tropicana Hotel is scheduled to open during the spring of 1957. It is reported to "outplush" the Fountainebleau Hotel at Miami Beach, Florida. The Tropicana [redacted]

Informed persons connected with the gambling circles in Las Vegas advise that the Tropicana is being largely financed by Frank Costello. [redacted] will be [redacted] who has allegedly operated gambling clubs for many years throughout the country for Costello. The cost of the hotel is reputed to be in excess of \$10,000,000 and will be, as they say in Las Vegas, "bank rolled" by an additional \$10,000,000.

Another very interesting item relates to the New Frontier Hotel. Recently we directed correspondence to the Bureau concerning former [redacted], who is taking an active management part in the direction of this hotel as a representative of [redacted]. [redacted] is out now because [redacted] and the other owners have sold out to [redacted]. recently [redacted] of [redacted]. The operation of the hotel and casino will be [redacted]. [redacted] who is reported to be currently in the favor of [redacted]. [redacted], [redacted], will also assist in the [redacted]. Neither of these individuals has had any prior experience in the operation of a hotel or gambling casino.

b6
b7C

Also of considerable interest are the techniques being utilized by the casinos to bring in rich customers. On the 10th of December the Sands, one of the better "Strip" hotels, sent chartered planes to various points in the country to pick up wealthy people known to be good gambling patrons. These people were flown to Las Vegas where, at the Sands, everything was "on the house" except, of course, the gambling.

Another plan was recently told me by Sheriff W. E. Leypoldt. He stated that plans were under way to construct a large auditorium in Las Vegas. The auditorium is to have a seating capacity of 7,500 persons and will be used to induce large organizations such as the American Legion to hold their national conventions at Las Vegas.

I felt that the above data would be of interest, and will advise of similar unusual information in this manner from time to time. It has become quickly apparent to me that Las Vegas, and for that matter Reno too, are spots that I should watch very carefully.

Respectfully,

W. MARK FELT

PERSONAL

Dear Mr. Hoover:

W. MARK FELT

Thank you very much for your thoughtful and very helpful letter of January 4, 1957. About once a month or as indicated I will write advising you of the behind-the-scenes information which comes to the attention of our Agents at both Las Vegas and Reno.

Special Agent [redacted], handles most of our investigative matters on "The Strip." He advises me that the New Year holiday week-end brought an influx of nearly 100,000 visitors to Las Vegas--the largest crowd in its history. Estimates from the various "Strip" hotels indicate that business was from 15 to 35% better than the last holiday season. An indication of the tremendous extent of business done by the gambling casinos is the report that more than \$1,000,000 was on the tables at one time in the Sands Hotel Casino.

The only indication that any of the casinos were "hit" to any extent is the report that the Riviera Hotel lost \$45,000 on one table Saturday night, December 29, 1956. This occurred when an unidentified young woman "held" the dice for an hour and ten minutes.

A further indication as to how profitable the casinos are is the following: [redacted], estranged wife of [redacted], sole owner of [redacted], is suing him for divorce, asking \$5,000 a month alimony. She alleges [redacted] income to be \$40,000 a month. [redacted] new love interest is reportedly [redacted].

I hope when I said in my earlier letter that informant coverage was good in Las Vegas I did not infer that

I felt it was good enough. It could never be good enough in either Las Vegas or Reno, and I have been putting considerable pressure on the Agents there to develop new potential criminal informants.

An interesting example of the informant potential is the case of [redacted], FBI # [redacted] a professional burglar well known throughout the West. Initial contacts with [redacted] with a view to his development as an informant had been made. Just after Christmas he offered to "turn" five kilograms of uncut Oriental heroin, together with its possessor. If true, this would, of course, represent a fantastic cache of heroin. The information was immediately relayed to the Bureau for information and to Narcotics Bureau representatives in Salt Lake City and Denver. A few days later, and before it had been possible to pursue this matter further, [redacted]

b7D

[redacted] is typical of the hoodlum element congregating at Las Vegas.

Your suggestion that I familiarize myself with the identities and activities of former Bureau personnel in Reno and Las Vegas was an excellent one.

There are ten former Special Agents at Las Vegas. This figure does not include former SAC Earle L. Richmond, who lost his connection at the New Frontier Hotel when it was recently purchased by [redacted]. Richmond has left Las Vegas and his present whereabouts is not known.

b6
b7C

Of the ten former Agents in Las Vegas, six are attorneys actively practicing. There is no indication that they have any direct connection with gambling interests. Definitely, however, as extensive as gambling is, these men are bound to have some business contact with elements directly or indirectly connected with gambling. We will be most circumspect in our dealings with these individuals. The only one of these attorneys whose reputation is not good is [redacted]. Some time ago he was the subject of considerable scandal in that he reportedly [redacted]. This resulted in [redacted].

b6
b7C

Two former Special Agents are directly connected with the casinos: [redacted] is [redacted] at the [redacted]. [redacted] is [redacted] at the [redacted].

b6
b7C

At Reno, Nevada, I have identified eight former Special Agents. Three of these are practicing attorneys, and while their reputations appear to be good, I will be alert to the ever-present possibility they may at some time be doing business with gambling elements.

[redacted], whom you will recall, is one of the three attorneys and also acts as [redacted]. He is very friendly and on a number of occasions has spoken very highly of you and of the Bureau.

b6
b7C

Only one former Agent is directly connected with gambling--that is [redacted], who is [redacted] for [redacted] at Lake Tahoe, Nevada.

b6
b7C

Former Special Agent Clayton D. Phillips is Manager of the Nevada Insurance Agency in Reno. His reputation appears to be satisfactory; however, on November 20, 1956, he was arrested by the Reno Police Department after a wild chase on Reno streets. He was charged with reckless driving and on the same date pleaded guilty and was fined \$150.

Former Agent William V. Sinnott is a member of the Gaming Control Board, Nevada Tax Commission, Carson City, Nevada. There has been no proof of pay-offs to any member of the Gaming Control Board, although from time to time very vague rumors of pay-offs are heard. No names have been mentioned. Sinnott holds the Bureau in very high regard and has been most cooperative; however, this situation is very illustrative of your point that we cannot relax in our dealings with anyone directly or indirectly connected with gambling.

Two former Agents are located at Elko, Nevada, and both are practicing attorneys. There is no indication either is connected with gambling or racketeering.

Outside of two individuals whom I am checking to see if they were Agents, there are no other former Special Agents in Nevada to my knowledge. I will make it a point to keep myself informed concerning this matter, and in my conferences with Resident Agents in these areas I will be sure they understand the need to avoid even the slightest possibility of potential embarrassment through their contacts with these individuals.

Respectfully,

Dear Mr. Felt:

I appreciate your writing to me as you did under date of December 20, 1956, regarding conditions at Las Vegas, Nevada. It is really amazing how such a place continues to grow and the tactics used to promote interest in the gambling activities. More and more, I am sure, it is becoming a melting pot for the hoodlum element.

I am gratified to know that you feel your informant coverage in Las Vegas is good and you are entirely correct in that you should carefully watch conditions in both Las Vegas and Reno.

Another factor that I feel you should familiarize yourself with is the activities of former Bureau personnel located in these areas. I am of the opinion there are quite a number engaged in the practice of law and other activities there. I have in mind the natural inclination for our Agent personnel to seek aid and counsel from former associates in areas where they are established. Certainly there is nothing wrong in this if such former personnel are engaged in proper activities and are known to be reliable. However, I feel we must keep in mind the fact that in such areas as these it is rather easy for a person in the business or professional world to become associated with the improper element under some circumstances. Of course, this is always an area of potential embarrassment to the Bureau.

I hope you will continue to keep me informed as you have in this instance.

Sincerely yours,

J. Edgar Hoover

A number of changes have been made in the schedule of SACs attending two-day conferences and In-Service training which necessitate a revision of the schedule. SAC Grapp, Richmond Division, under transfer to Buffalo, was due on March 18, 1957, but was changed to April 1, 1957, at his request. SAC Hosteny, scheduled for April 15, 1957, is being recommended as a replacement for March 18, 1957. SAC J. J. Kelly was due March 25, 1957; however, in view of his pending operation, is being rescheduled for June 3, 1957. SAC Boyle, El Paso, is being recommended as a replacement. SAC R. B. Miller, formerly scheduled for April 15, 1957, was rescheduled for June 17, 1957, so he would have an opportunity to break in his new ASAC. SAC Felt, Salt Lake City, formerly scheduled for June 10, 1957, is being recommended as a replacement. SAC Lopez, formerly scheduled for June 3, 1957, is being moved up to April 15, 1957, as a replacement for SAC Hosteny. There are no known commitments which would preclude these changes. If the above changes are approved we will have two SACs for each week with the exception of the last week of the schedule when there will only be one SAC.

RECOMMENDATION:

That the attached airtels be approved making the necessary changes.

Although all available Agents worked on this case, its speedy and successful solution was due in a very large measure to the intelligent approach to the problems and the untiring efforts of ASAC HEBER M. CLEGG and SAs [redacted], and [redacted].

Through their efforts, not only were signed confessions obtained from both subjects, but also the weapon used in instant shooting and \$3,160 in cash were recovered. Extensive newspaper publicity had been given to the alleged kidnaping and robbery, and this early and successful solution of the case has definitely added to the prestige of the FBI. In addition, had the subject's story not been determined at an early date to be a hoax, costly and extensive unnecessary investigation would have been conducted.

ASAC CLEGG personally directed and participated in extensive investigation at Wendover, Utah, the scene of the shortage, and he also participated in the interviews of Subject [redacted] at the Veterans Hospital in Salt Lake City which resulted in obtaining confessions from the Subjects.

SA [redacted] participated in almost every phase of the investigation, and it was he who organized an extensive crime scene search which covered an area of one and one half miles in length and two hundred yards wide. While the crime scene search was not productive of direct evidence, the negative aspects thereof greatly assisted in the interrogation of Subject [redacted]. [redacted] also proceeded in the middle of the night in a pouring rain to the scene where the revolver and money were buried, with no thought for his personal comfort or convenience.

While this case was under my direct supervision and while the confession was made to me, the uncovering of evidence and the prior interviews of Subject [redacted] were the factors which resulted in the successful outcome.

Mr. W. Mark Felt

Dear Mr. Felt:

I have noted your use of a Teletype on March 27, 1957, in the Interstate Transportation of Stolen Property - Counterfeiting case involving [redacted] and [redacted] requesting another division to determine from the subjects who were in custody if they had prepared checks or other documents in which the Bureau would have jurisdiction or an interest. Certainly an Air-Tel or letter submitted promptly would have adequately served the purpose for which this Teletype was sent and you were at fault in thus unnecessarily incurring communications expense.

In the future, you will be expected to give more careful attention to such matters in order that you may not again be at fault in this respect.

Very truly yours,

J. Edgar Hoover

The attached teletype directed by Salt Lake City to the Director and Minneapolis is totally unnecessary. It could have been handled direct with Minneapolis by airtel. The Seat of Government has no immediate interest in the matter whatever.

RECOMMENDATION:

Letter of censure be directed to the Special Agent in Charge of the Salt Lake City Office.
